"THE NONPAREIL"
CORRUGATED GUMMED STUB FILE.

Patented Oct. 27, 1876. Dec. 5, 1876. Nov. 29, 1881.

7-435
All difficulty in filing due to curled stubs, so common in other makes of files, is absolutely overcome by the patented Process of Corrugation which prevents the stubs from curling, and leaves them remaining flat at all times, and permits of ready access to each individual stub. The advantage of this feature will be appreciated by any one who has ever attempted to use a file where the stubs were so curled as to make it almost impossible to separate one from the other.

DIRECTIONS FOR FILING.

Moisten the Gummed Stub, but put a strip of oiled paper underneath, to prevent the previous filing from soaking; put your document in accurate position, then withdraw the oiled paper and proceed filing, and when finished, close the covers in order to give the last attachment time to dry under a slight pressure.

Stock Sizes, in 250 and 500 Stubs (gummed): 6x9, 7x11, 8½x9, 9x11, 10x12, 9x13, 9x15, 11x15, 12½x17½. Other sizes made to order at short notice. Ungummed Files made to order only.

CLASSIFICATION OF RISKS.

First-class, detached dwellings and contents for the purpose of assessments, in event of loss, be charged as basis rate on each \$100 of valuation, 50 cents.

DEFICIENCIES—

For one or more stovepipes extending through the roof, floor or side walls, add to basis rate, 50 cents.

For one or more terra cotta flues extending through the roof, floor or side walls, add to basis rate 10 cents.

For cloth lining for whole or part of any dwelling, unless closely tacked to wall and papered or painted, add to basis rate 25 cents.

Detached barns or stables and contents rated at \$1.50.

Barns over 400 feet from dwelling, used for storage only, rated at \$2.00.

School-houses and churches rated \$1.50.

Fruit Driers, \$4.00.

All buildings to be detached and not less than 60 feet from other exposures. 25 cents on \$100 added on all buildings less than 60 feet from exposures.

Contents to rate the same as the buildings in which they are kept.

An outbuilding (except a barn or stable) in which no fire is used, is not an exposure to a dwelling; but a barn or stable is an exposure to a dwelling, or a dwelling is an exposure to a barn or stable.

When two or more buildings adjoining or adjacent are occupied by the same person for a common purpose so that the buildings, although separated, constitute a single hazard, are not exposures to each other.

Delivered in person 4th

NOTICE TO AGENTS.

On diagram show all buildings insured, and all exposures within 100 feet; say just what each building is occupied for, and mark distances in figures between all buildings shown on Diagram.

Post Office,

Santa Clara County, Cal.

CLASSIFICATION OF RISKS.

First-class, detached dwellings and contents for the purpose of assessments, in event of loss, be charged as basis rate on each \$100 of valuation, 50 cents.

DEFICIENCIES—

For one or more stovepipes extending through the roof, floor or side walls, add to basis rate, 50 cents.

For one or more terra cotta flues extending through the roof, floor or side walls, add to basis rate 10 cents.

For cloth lining for whole or part of any dwelling, unless closely tacked to wall and papered or painted, add to basis rate 25 cents.

Detached barns or stables and contents rated at \$1.50.

Barns over 400 feet from dwelling, used for storage only, rated at \$2.00.

School-houses and churches rated \$1.50.

Fruit Driers, \$4.00.

All buildings to be detached and not less than 60 feet from other exposures. 25 cents on \$100 added on all buildings less than 60 feet from exposures.

Contents to rate the same as the buildings in which they are kept.

An outbuilding (except a barn or stable) in which no fire is used, is not an exposure to a dwelling; but a barn or stable is an exposure to a dwelling, or a dwelling is an exposure to a barn or stable.

When two or more buildings adjoining or adjacent are occupied by the same person for a common purpose so that the buildings, although separated, constitute a single hazard, are not exposures to each other.

DEFICIENCIES—

For one or more stovepipes extending through the roof, floor or side walls, add to basis rate, 50 cents.

For one or more terra cotta flues extending through the roof, floor or side walls, add to basis rate 10 cents.

For cloth lining for whole or part of any dwelling, unless closely tacked to wall and papered or painted, add to basis rate 25 cents.

Detached barns or stables and contents rated at \$1.50.

Barns over 400 feet from dwelling, used for storage only, rated at \$2.00.

School-houses and churches rated \$1.50.

Fruit Driers, \$4.00.

All buildings to be detached and not less than 60 feet from other exposures. 25 cents on \$100 added on all buildings less than 60 feet from exposures.

Contents to rate the same as the buildings in which they are kept.

An outbuilding (except a barn or stable) in which no fire is used, is not an exposure to a dwelling; but a barn or stable is an exposure to a dwelling, or a dwelling is an exposure to a barn or stable.

When two or more buildings adjoining or adjacent are occupied by the same person for a common purpose so that the buildings, although separated, constitute a single hazard, are not exposures to each other.

NOTICE TO AGENTS.

On diagram show all buildings insured, and all exposures within 100 feet; say just what each building is occupied for, and mark distances in figures between all buildings shown on Diagram.

CLASSIFICATION OF RISKS.

First-class, detached dwellings and contents for the purpose of assessments, in event of loss, be charged as basis rate on each \$100 of valuation, 50 cents.

DEFICIENCIES—

For one or more stovepipes extending through the roof, floor or side walls, add to basis rate, 50 cents.

For one or more terra cotta flues extending through the roof, floor or side walls, add to basis rate 10 cents.

For cloth lining for whole or part of any dwelling, unless closely tacked to wall and papered or painted, add to basis rate 25 cents.

Detached barns or stables and contents rated at \$1.50.

Barns over 400 feet from dwelling, used for storage only, rated at \$2.00.

School-houses and churches rated \$1.50.

Fruit Driers, \$4.00.

All buildings to be detached and not less than 60 feet from other exposures. 25 cents on \$100 added on all buildings less than 60 feet from exposures.

Contents to rate the same as the buildings in which they are kept.

An outbuilding (except a barn or stable) in which no fire is used, is not an exposure to a dwelling; but a barn or stable is an exposure to a dwelling, or a dwelling is an exposure to a barn or stable.

When two or more buildings adjoining or adjacent are occupied by the same person for a common purpose so that the buildings, although separated, constitute a single hazard, are not exposures to each other.

CLASSIFICATION OF RISKS.

First-class, detached dwellings and contents for the purpose of assessments, in event of loss, be charged as basis rate on each \$100 of valuation, 50 cents.

DEFICIENCIES—

For one or more stovepipes extending through the roof, floor or side walls, add to basis rate, 50 cents.

For one or more terra cotta flues extending through the roof, floor or side walls, add to basis rate 10 cents.

For cloth lining for whole or part of any dwelling, unless closely tacked to wall and papered or painted, add to basis rate 25 cents.

Detached barns or stables and contents rated at \$1.50.

Arms over 400 feet from dwelling, used for storage only, rated at \$2.00.

School-houses and churches rated \$1.50.

Fruit Driers, \$4.00.

All buildings to be detached and not less than 60 feet from other exposures. 25 cents on \$100 added on all buildings less than 60 feet from exposures.

Contents to rate the same as the buildings in which they are kept.

In outbuilding (except a barn or stable) in which no fire is used, is not an exposure to a dwelling; but a barn or stable is an exposure to a dwelling, or a dwelling is an exposure to a barn or stable.

When two or more buildings adjoining or adjacent are occupied by the same person for a common purpose so that the buildings, although separated, constitute a single hazard, are not exposures to each other.

APPLICATION

OF

Thermaine Abbott

Santa Clara

Santa Clara County, Cal.

Post Office,

CLASSIFICATION OF RISKS.

First-class, detached dwellings and contents for the purpose of assessments, in event of loss, be charged as basis rate on each \$100 of valuation, 50 cents.

DEFICIENCIES—

For one or more stovepipes extending through the roof, floor or side walls, add to basis rate, 50 cents.

For one or more terra cotta flues extending through the roof, floor or side walls, add to basis rate 10 cents.

For cloth lining for whole or part of any dwelling, unless closely tacked to wall and papered or painted, add to basis rate 25 cents.

Detached barns or stables and contents rated at \$1.50.

Barns over 400 feet from dwelling, used for storage only, rated at \$2.00.

School-houses and churches rated \$1.50.

Fruit Driers, \$4.00.

All buildings to be detached and not less than 60 feet from other exposures. 25 cents on \$100 added on all buildings less than 60 feet from exposures.

Contents to rate the same as the buildings in which they are kept.

An outbuilding (except a barn or stable) in which no fire is used, is not an exposure to a dwelling; but a barn or stable is an exposure to a dwelling, or a dwelling is an exposure to a barn or stable.

When two or more buildings adjoining or adjacent are occupied by the same person for a common purpose so that the buildings, although separated, constitute a single hazard, are not exposures to each other.

NOTICE TO AGENTS.

On diagram show all buildings insured, and all exposures within 100 feet; say just what each building is occupied for, and mark distances in figures between all buildings shown on Diagram.

CLASSIFICATION OF RISKS.

First-class, detached dwellings and contents for the purpose of assessments, in event of loss, be charged as basis rate on each \$100 of valuation, 50 cents.

DEFICIENCIES—

For one or more stovepipes extending through the roof, floor or side walls, add to basis rate, 50 cents.

For one or more terra cotta flues extending through the roof, floor or side walls, add to basis rate 10 cents.

For cloth lining for whole or part of any dwelling, unless closely tacked to wall and papered or painted, add to basis rate 25 cents.

Detached barns or stables and contents rated at \$1.50.

Barns over 400 feet from dwelling, used for storage only, rated at \$2.00.

School-houses and churches rated \$1.50.

Fruit Driers, \$4.00.

All buildings to be detached and not less than 60 feet from other exposures. 25 cents on \$100 added on all buildings less than 60 feet from exposures.

Contents to rate the same as the buildings in which they are kept.

An outbuilding (except a barn or stable) in which no fire is used, is not an exposure to a dwelling; but a barn or stable is an exposure to a dwelling, or a dwelling is an exposure to a barn or stable.

When two or more buildings adjoining or adjacent are occupied by the same person for a common purpose so that the buildings, although separated, constitute a single hazard, are not exposures to each other.

NOTICE TO AGENTS.

On diagram show all buildings insured, and all exposures within 100 feet; say just what each building is occupied for, and mark distances in figures between all buildings shown on Diagram.

For one or more stovepipes extending through the roof, floor or side walls, add to basis rate, 50 cents.

For one or more terra cotta flues extending through the roof, floor or side walls, add to basis rate 10 cents.

For cloth lining for whole or part of any dwelling, unless closely tacked to wall and papered or painted, add to basis rate 25 cents.

Detached barns or stables and contents rated at \$1.50.

Barns over 400 feet from dwelling, used for storage only, rated at \$2.00.

School-houses and churches rated \$1.50.

Fruit Driers, \$4.00.

All buildings to be detached and not less than 60 feet from other exposures. 25 cents on \$100 added on all buildings less than 60 feet from exposures.

Contents to rate the same as the buildings in which they are kept.

An outbuilding (except a barn or stable) in which no fire is used, is not an exposure to a dwelling; but a barn or stable is an exposure to a dwelling, or a dwelling is an exposure to a barn or stable.

When two or more buildings adjoining or adjacent are occupied by the same person for a common purpose so that the buildings, although separated, constitute a single hazard, are not exposures to each other.

Having purchased of Robert McEubbie, the property described in
Policy No. 800 in the Santa Clara County Fire Insurance Company, and the said Policy
having been assigned to me by said Robert McEubbie
I hereby accept the said Policy of Insurance under the conditions which it was issued, and agree
to pay all legal assessments and be governed by the By-Laws of the above Association.

First-class, detached dwellings and contents for the purpose of assessments, in event of loss, be charged as basis rate on each \$100 of valuation, 50 cents.

DEFICIENCIES—

For one or more stovepipes extending through the roof, floor or side walls, add to basis rate, 50 cents.

For one or more terra cotta flues extending through the roof, floor or side walls, add to basis rate 10 cents.

For cloth lining for whole or part of any dwelling, unless closely tacked to wall and papered or painted, add to basis rate 25 cents.

Detached barns or stables and contents rated at \$1.50.

Barns over 400 feet from dwelling, used for storage only, rated at \$2.00.

School-houses and churches rated \$1.50.

Fruit Driers, \$4.00.

All buildings to be detached and not less than 60 feet from other exposures. 25 cents on \$100 added on all buildings less than 60 feet from exposures.

Contents to rate the same as the buildings in which they are kept.

An outbuilding (except a barn or stable) in which no fire is used, is not an exposure to a dwelling; but a barn or stable is an exposure to a dwelling, or a dwelling is an exposure to a barn or stable.

When two or more buildings adjoining or adjacent are occupied by the same person for a common purpose so that the buildings, although separated, constitute a single hazard, are not exposures to each other.

- What is your title to said land? Deed
- What incumbrance? 2500 By whom held? S. K. Jackson Loss Payable
- How much land do you own on which the property to be insured is situated, and what is its value?
five acres, worth \$ 6000 with improvements.
- What other fire insurance? none
- Are the premises occupied by owner? yes
- Do all the stove-pipes go direct into good brick chimneys? yes
- If the stove pipes pass through wooden partitions or floor, how are they secured? yes
- How near to wood? yes
- Will you keep fire apparatus, stove pipes and chimneys in good order, and take proper care of ashes and embers? yes
- Will you keep matches in a safe place? yes
- Do you allow smoking in barns? no
- Is fire used in buildings except dwelling? no
- Will you keep a suitable ladder and have it in a convenient place to get at in case of fire? yes
- Plastered, papered or cloth lined? plastered

And the said applicant hereby warrants, covenants and agrees to and with said Company, that the foregoing is a full, just and
 true exposition of all the facts and circumstances, condition and value of property to be Insured, and is offered as a basis of the in-
 surance requested, and is made a special warranty the same as if written on the face of the Policy. For and in consideration
 of 2075 DOLLARS, Insured in THE SANTA CLARA COUNTY FIRE INSURANCE COMPANY, I bind myself, heirs, executors, ad-
 ministrators and assigns, to pay my PRO RATA share of all assessments declared by the Directors of said Company, within sixty days, said
 assessments to be applied to pay losses that may happen to members of said Company, or incidental expenses, during the life of my Policy.

And the said applicant further covenants and agrees with said Company, that the By-Laws of the said Company shall form a part
 of the Policy issued in this Application.

It is warranted by the assured that the reservoir is to be filled during the daylight only, when the stove is not in use, and that no
 artificial light be permitted in the room when the reservoir is being filled, and no gasoline except that contained in said reservoirs shall
 be kept within the building.

CLASSIFICATION OF RISKS.

First-class, detached dwellings and contents for the purpose of assessments, in event of loss, be charged as basis rate on each \$100 of valuation, 50 cents.

DEFICIENCIES—

For one or more stovepipes extending through the roof, floor or side walls, add to basis rate, 50 cents.

For one or more terra cotta flues extending through the roof, floor or side walls, add to basis rate 10 cents.

For cloth lining for whole or part of any dwelling, unless closely tacked to wall and papered or painted, add to basis rate 25 cents.

Detached barns or stables and contents rated at \$1.50.

Barns over 400 feet from dwelling, used for storage only, rated at \$2.00.

School-houses and churches rated \$1.50.

Fruit Driers, \$4.00.

All buildings to be detached and not less than 60 feet from other exposures. 25 cents on \$100 added on all buildings less than 60 feet from exposures.

Contents to rate the same as the buildings in which they are kept.

An outbuilding (except a barn or stable) in which no fire is used, is not an exposure to a dwelling; but a barn or stable is an exposure to a dwelling, or a dwelling is an exposure to a barn or stable.

When two or more buildings adjoining or adjacent are occupied by the same person for a common purpose so that the buildings, although separated, constitute a single hazard, are not exposures to each other.

CLASSIFICATION OF RISKS.

First-class, detached dwellings and contents for the purpose of assessments, in event of loss, be charged as basis rate on each \$100 of valuation, 50 cents.

DEFICIENCIES—

For one or more stovepipes extending through the roof, floor or side walls, add to basis rate, 50 cents.

For one or more terra cotta flues extending through the roof, floor or side walls, add to basis rate 10 cents.

For cloth lining for whole or part of any dwelling, unless closely tacked to wall and papered or painted, add to basis rate 25 cents.

Detached barns or stables and contents rated at \$1.50.

Barns over 400 feet from dwelling, used for storage only, rated at \$2.00.

School-houses and churches rated \$1.50.

Fruit Driers, \$4.00.

All buildings to be detached and not less than 60 feet from other exposures. 25 cents on \$100 added on all buildings less than 60 feet from exposures.

Contents to rate the same as the buildings in which they are kept.

An outbuilding (except a barn or stable) in which no fire is used, is not an exposure to a dwelling; but a barn or stable is an exposure to a dwelling, or a dwelling is an exposure to a barn or stable.

When two or more buildings adjoining or adjacent are occupied by the same person for a common purpose so that the buildings, although separated, constitute a single hazard, are not exposures to each other.

And the said applicant hereby warrants, covenants and agrees to and with said Company, that the foregoing is a full, just and
true exposition of all the facts and circumstances, condition and value of property to be Insured, and is offered as a basis of the in-
surance requested, and is made a special warranty the same as if written on the face of the Policy. For and in consideration
of 930 DOLLARS, Insured in THE SANTA CLARA COUNTY FIRE INSURANCE COMPANY, I bind myself, heirs, executors, ad-
ministrators and assigns, to pay my PRO RATA share of all assessments declared by the Directors of said Company, within sixty days, said
assessments to be applied to pay losses that may happen to members of said Company, or incidental expenses, during the life of my Policy.
And the said applicant further covenants and agrees with said Company, that the By-Laws of the said Company shall form a part
of the Policy issued in this Application.
It is warranted by the assured that the reservoir is to be filled during the daylight only, when the stove is not in use, and that no
artificial light be permitted in the room when the reservoir is being filled, and no gasoline except that contained in said reservoirs shall
be kept within the building.

CLASSIFICATION OF RISKS.

First-class, detached dwellings and contents for the purpose of assessments, in event of loss, be charged as basis rate on each \$100 of valuation, 50 cents.

DEFICIENCIES—

For one or more stovepipes extending through the roof, floor or side walls, add to basis rate, 50 cents.

For one or more terra cotta flues extending through the roof, floor or side walls, add to basis rate 10 cents.

For cloth lining for whole or part of any dwelling, unless closely tacked to wall and papered or painted, add to basis rate 25 cents.

Detached barns or stables and contents rated at \$1.50.

Barns over 400 feet from dwelling, used for storage only, rated at \$2.00.

School-houses and churches rated \$1.50.

Fruit Driers, \$4.00.

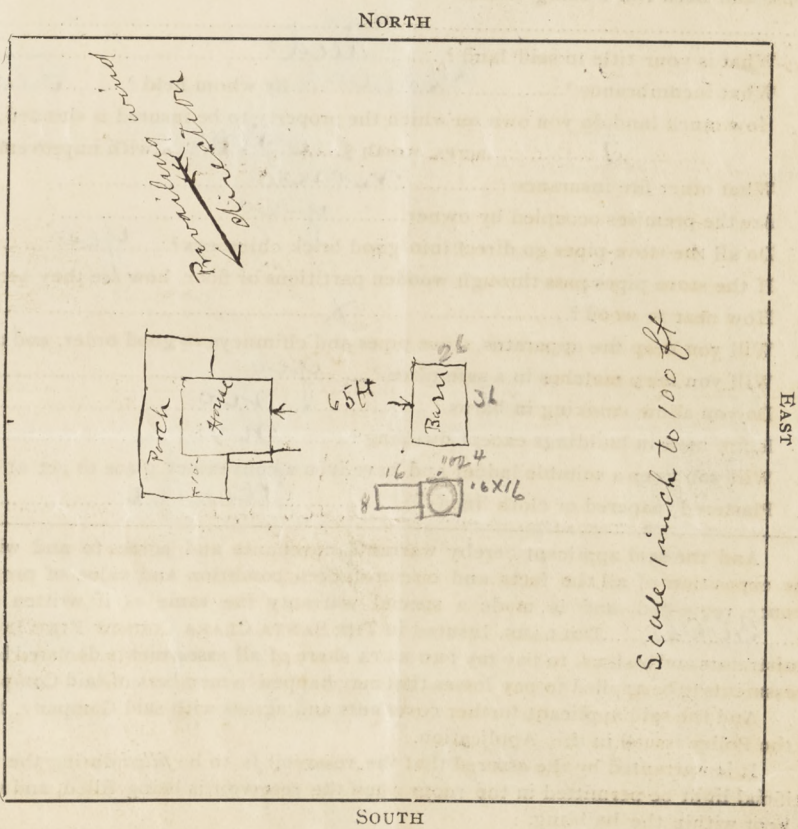

All buildings to be detached and not less than 60 feet from other exposures. 25 cents on \$100 added on all buildings less than 60 feet from exposures.

Contents to rate the same as the buildings in which they are kept.

An outbuilding (except a barn or stable) in which no fire is used, is not an exposure to a dwelling; but a barn or stable is an exposure to a dwelling, or a dwelling is an exposure to a barn or stable.

When two or more buildings adjoining or adjacent are occupied by the same person for a common purpose so that the buildings, although separated, constitute a single hazard, are not exposures to each other.

CLASSIFICATION OF RISKS.

First-class, detached dwellings and contents for the purpose of assessments, in event of loss, be charged as basis rate on each \$100 of valuation, 50 cents.

DEFICIENCIES—

For one or more stovepipes extending through the roof, floor or side walls, add to basis rate, 50 cents.

For one or more terra cotta flues extending through the roof, floor or side walls, add to basis rate 10 cents.

For cloth lining for whole or part of any dwelling, unless closely tacked to wall and papered or painted, add to basis rate 25 cents.

Detached barns or stables and contents rated at \$1.50.

Barns over 400 feet from dwelling, used for storage only, rated at \$2.00.

School-houses and churches rated \$1.50.

Fruit Drifts, \$4.00.

All buildings to be detached and not less than 60 feet from other exposures. 25 cents on \$100 added on all buildings less than 60 feet from exposures.

Contents to rate the same as the buildings in which they are kept.

An outbuilding (except a barn or stable) in which no fire is used, is not an exposure to a dwelling; but a barn or stable is an exposure to a dwelling, or a dwelling is an exposure to a barn or stable.

When two or more buildings adjoining or adjacent are occupied by the same person for a common purpose so that the buildings, although separated, constitute a single hazard, are not exposures to each other.

NOTICE TO AGENTS.

On diagram show all buildings insured, and all exposures within 100 feet; say just what each building is occupied for, and mark distances in figures between all buildings shown on Diagram.

Contents to rate the same as the buildings in which they are kept.

An outbuilding (except a barn or stable) in which no fire is used, is not an exposure to a dwelling; but a barn or stable is an exposure to a dwelling, or a dwelling is an exposure to a barn or stable.

When two or more buildings adjoining or adjacent are occupied by the same person for a common purpose so that the buildings, although separated, constitute a single hazard, are not exposures to each other.

NOTICE TO AGENTS.

On diagram show all buildings insured, and all exposures within 100 feet; say just what each building is occupied for, and mark distances in figures between all buildings shown on Diagram.

CLASSIFICATION OF RISKS.

First-class, detached dwellings and contents for the purpose of assessments, in event of loss, be charged as basis rate on each \$100 of valuation, 50 cents.

DEFICIENCIES—

For one or more stovepipes extending through the roof, floor or side walls, add to basis rate, 50 cents.

For one or more terra cotta flues extending through the roof, floor or side walls, add to basis rate 10 cents.

For cloth lining for whole or part of any dwelling, unless closely tacked to wall and papered or painted, add to basis rate 25 cents.

Detached barns or stables and contents rated at \$1.50.

Barns over 400 feet from dwelling, used for storage only, rated at \$2.00.

School-houses and churches rated \$1.50.

Fruit Driers, \$4.00.

All buildings to be detached and not less than 60 feet from other exposures. 25 cents on \$100 added on all buildings less than 60 feet from exposures.

Contents to rate the same as the buildings in which they are kept.

An outbuilding (except a barn or stable) in which no fire is used, is not an exposure to a dwelling; but a barn or stable is an exposure to a dwelling, or a dwelling is an exposure to a barn or stable.

When two or more buildings adjoining or adjacent are occupied by the same person for a common purpose so that the buildings, although separated, constitute a single hazard, are not exposures to each other.

Detached barns or stables and contents rated at \$1.50.

Barns over 400 feet from dwelling, used for storage only, rated at \$2.00.

School-houses and churches rated \$1.50.

Fruit Driers, \$4.00.

All buildings to be detached and not less than 60 feet from other exposures. 25 cents on \$100 added on all buildings less than 60 feet from exposures.

Contents to rate the same as the buildings in which they are kept.

An outbuilding (except a barn or stable) in which no fire is used, is not an exposure to a dwelling; but a barn or stable is an exposure to a dwelling, or a dwelling is an exposure to a barn or stable.

When two or more buildings adjoining or adjacent are occupied by the same person for a common purpose so that the buildings, although separated, constitute a single hazard, are not exposures to each other.

NOTICE TO AGENTS.

On diagram show all buildings insured, and all exposures within 100 feet; say just what each building is occupied for, and mark distances in figures between all buildings shown on Diagram.

CLASSIFICATION OF RISKS.

First-class, detached dwellings and contents for the purpose of assessments, in event of loss, be charged as basis rate on each \$100 of valuation, 50 cents.

DEFICIENCIES—

For one or more stovepipes extending through the roof, floor or side walls, add to basis rate, 50 cents.

For one or more terra cotta flues extending through the roof, floor or side walls, add to basis rate 10 cents.

For cloth lining for whole or part of any dwelling, unless closely tacked to wall and papered or painted, add to basis rate 25 cents.

Detached barns or stables and contents rated at \$1.50.

Barns over 400 feet from dwelling, used for storage only, rated at \$2.00.

School-houses and churches rated \$1.50.

Fruit Driers, \$4.00.

All buildings to be detached and not less than 60 feet from other exposures. 25 cents on \$100 added on all buildings less than 60 feet from exposures.

Contents to rate the same as the buildings in which they are kept.

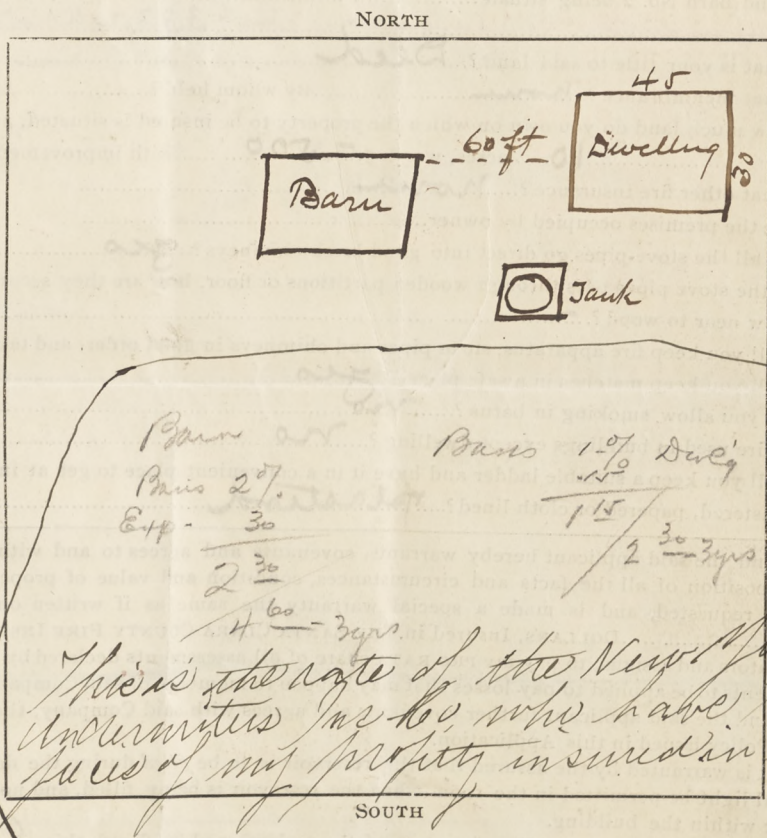

An outbuilding (except a barn or stable) in which no fire is used, is not an exposure to a dwelling; but a barn or stable is an exposure to a dwelling, or a dwelling is an exposure to a barn or stable.

When two or more buildings adjoining or adjacent are occupied by the same person for a common purpose so that the buildings, although separated, constitute a single hazard, are not exposures to each other.

CLASSIFICATION OF RISKS.

First-class, detached dwellings and contents for the purpose of assessments, in event of loss, be charged as basis rate on each \$100 of valuation, 50 cents.

DEFICIENCIES—

For one or more stovepipes extending through the roof, floor or side walls, add to basis rate, 50 cents.

For one or more terra cotta flues extending through the roof, floor or side walls, add to basis rate 10 cents.

For cloth lining for whole or part of any dwelling, unless closely tacked to wall and papered or painted, add to basis rate 25 cents.

Detached barns or stables and contents rated at \$1.50.

Barns over 400 feet from dwelling, used for storage only, rated at \$2.00.

School-houses and churches rated \$1.50.

Fruit Driers, \$4.00.

All buildings to be detached and not less than 60 feet from other exposures. 25 cents on \$100 added on all buildings less than 60 feet from exposures.

Contents to rate the same as the buildings in which they are kept.

An outbuilding (except a barn or stable) in which no fire is used, is not an exposure to a dwelling; but a barn or stable is an exposure to a dwelling, or a dwelling is an exposure to a barn or stable.

When two or more buildings adjoining or adjacent are occupied by the same person for a common purpose so that the buildings, although separated, constitute a single hazard, are not exposures to each other.

Approved May 19th 1903

B. E. Mulholland
President.

Joseph Taylor
Secretary.

Press of Brower Printing Co., San Jose, Cal.

CLASSIFICATION OF RISKS.

First-class, detached dwellings and contents for the purpose of assessments, in event of loss, be charged as basis rate on each \$100 of valuation, 50 cents.

DEFICIENCIES—

For one or more stovepipes extending through the roof, floor or side walls, add to basis rate, 50 cents.

For one or more terra cotta flues extending through the roof, floor or side walls, add to basis rate 10 cents.

For cloth lining for whole or part of any dwelling, unless closely tacked to wall and papered or painted, add to basis rate 25 cents.

Detached barns or stables and contents rated at \$1.50.

Barns over 400 feet from dwelling, used for storage only, rated at \$2.00.

School-houses and churches rated \$1.50.

Fruit Driers, \$4.00.

All buildings to be detached and not less than 60 feet from other exposures. 25 cents on \$100 added on all buildings less than 60 feet from exposures.

Contents to rate the same as the buildings in which they are kept.

An outbuilding (except a barn or stable) in which no fire is used, is not an exposure to a dwelling; but a barn or stable is an exposure to a dwelling, or a dwelling is an exposure to a barn or stable.

When two or more buildings adjoining or adjacent are occupied by the same person for a common purpose so that the buildings, although separated, constitute a single hazard, are not exposures to each other.

Detached in person

NOTICE TO AGENTS.

On diagram show all buildings insured, and all exposures within 100 feet; say just what each building is occupied for, and mark distances in figures between all buildings shown on Diagram.

CLASSIFICATION OF RISKS.

First-class, detached dwellings and contents for the purpose of assessments, in event of loss, be charged as basis rate on each \$100 of valuation, 50 cents.

DEFICIENCIES—

For one or more stovepipes extending through the roof, floor or side walls, add to basis rate, 50 cents.

For one or more terra cotta flues extending through the roof, floor or side walls, add to basis rate 10 cents.

For cloth lining for whole or part of any dwelling, unless closely tacked to wall and papered or painted, add to basis rate 25 cents.

Detached barns or stables and contents rated at \$1.50.

Barns over 400 feet from dwelling, used for storage only, rated at \$2.00.

School-houses and churches rated \$1.50.

Fruit Driers, \$4.00.

All buildings to be detached and not less than 60 feet from other exposures. 25 cents on \$100 added on all buildings less than 60 feet from exposures.

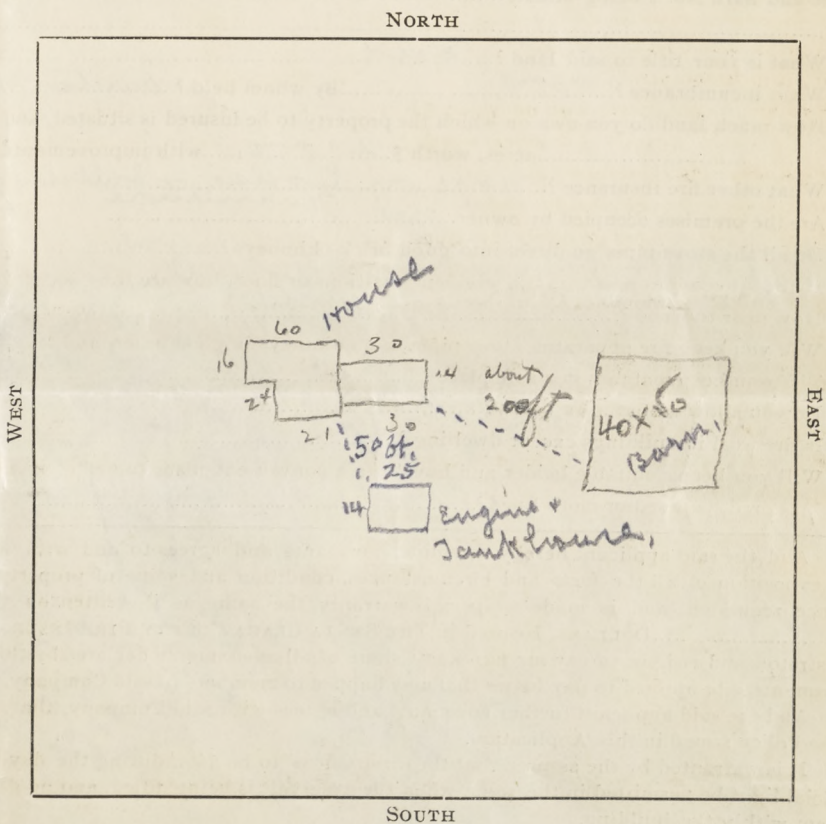

Contents to rate the same as the buildings in which they are kept.

An outbuilding (except a barn or stable) in which no fire is used, is not an exposure to a dwelling; but a barn or stable is an exposure to a dwelling, or a dwelling is an exposure to a barn or stable.

When two or more buildings adjoining or adjacent are occupied by the same person for a common purpose so that the buildings, although separated, constitute a single hazard, are not exposures to each other.

NOTICE TO AGENTS.

On diagram show all buildings insured, and all exposures within 100 feet; say just what each building is occupied for, and mark distances in figures between all buildings shown on Diagram.

Mr Taylor,
San Jose

Dear Sir:—Yours of the 13th. received and
noted. Mr Johnson is carrying
some old fire insurance on his
barn and did ^{not} care to cancell it for
San to Clara Co. Fire Ins. as it will expire
in a few months at which time he intends
to insure in your company.

I have taken \$10⁰⁰ off the amount he
desired to carry on hay and put it
on his barn which as I understand the
matter will fix it right so as to cover
the hay and horses.

Yours truly
L Cunningham

And the said applicant hereby warrants, covenants and agrees to and with said Company, that the foregoing is a full, just and
true exposition of all the facts and circumstances, condition and value of property to be Insured, and is offered as a basis of the in-
surance requested, and is made a special warranty the same as if written on the face of the Policy. For and in consideration
of 3280 DOLLARS, Insured in THE SANTA CLARA COUNTY FIRE INSURANCE COMPANY, I bind myself, heirs, executors, ad-
ministrators and assigns, to pay my PRO RATA share of all assessments declared by the Directors of said Company, within sixty days, said
assessments to be applied to pay losses that may happen to members of said Company, or incidental expenses, during the life of my Policy.

And the said applicant further covenants and agrees with said Company, that the By-Laws of the said Company shall form a part
of the Policy issued in this Application.

It is warranted by the assured that the reservoir is to be filled during the daylight only, when the stove is not in use, and that no
artificial light be permitted in the room when the reservoir is being filled, and no gasoline except that contained in said reservoirs shall
be kept within the building.

CLASSIFICATION OF RISKS.

First-class, detached dwellings and contents for the purpose of assessments, in event of loss, be charged as basis rate on each \$100 of valuation, 50 cents.

DEFICIENCIES—

For one or more stovepipes extending through the roof, floor or side walls, add to basis rate, 50 cents.

For one or more terra cotta flues extending through the roof, floor or side walls, add to basis rate 10 cents.

For cloth lining for whole or part of any dwelling, unless closely tacked to wall and papered or painted, add to basis rate 25 cents.

Detached barns or stables and contents rated at \$1.50.

Barns over 400 feet from dwelling, used for storage only, rated at \$2.00.

School-houses and churches rated \$1.50.

Fruit Driers, \$4.00.

All buildings to be detached and not less than 60 feet from other exposures. 25 cents on \$100 added on all buildings less than 60 feet from exposures.

Contents to rate the same as the buildings in which they are kept.

An outbuilding (except a barn or stable) in which no fire is used, is not an exposure to a dwelling; but a barn or stable is an exposure to a dwelling, or a dwelling is an exposure to a barn or stable.

When two or more buildings adjoining or adjacent are occupied by the same person for a common purpose so that the buildings, although separated, constitute a single hazard, are not exposures to each other.

NOTICE TO AGENTS.

On diagram show all buildings insured, and all exposures within 100 feet; say just what each building is occupied for, and mark distances in figures between all buildings shown on Diagram.

And the said applicant hereby warrants, covenants and agrees to and with said Company, that the foregoing is a full, just and
 true exposition of all the facts and circumstances, condition and value of property to be Insured, and is offered as a basis of the in-
 surance requested, and is made a special warranty the same as if written on the face of the Policy. For and in consideration
 of 1250 DOLLARS, Insured in THE SANTA CLARA COUNTY FIRE INSURANCE COMPANY, I bind myself, heirs, executors, ad-
 ministrators and assigns, to pay my PRO RATA share of all assessments declared by the Directors of said Company, within sixty days, said
 assessments to be applied to pay losses that may happen to members of said Company, or incidental expenses, during the life of my Policy.

And the said applicant further covenants and agrees with said Company, that the By-Laws of the said Company shall form a part
 of the Policy issued in this Application.

It is warranted by the assured that the reservoir is to be filled during the daylight only, when the stove is not in use, and that no
 artificial light be permitted in the room when the reservoir is being filled, and no gasoline except that contained in said reservoirs shall
 be kept within the building.

CLASSIFICATION OF RISKS.

First-class, detached dwellings and contents for the purpose of assessments, in event of loss, be charged as basis rate on each \$100 of valuation, 50 cents.

DEFICIENCIES—

For one or more stovepipes extending through the roof, floor or side walls, add to basis rate, 50 cents.

For one or more terra cotta flues extending through the roof, floor or side walls, add to basis rate 10 cents.

For cloth lining for whole or part of any dwelling, unless closely tacked to wall and papered or painted, add to basis rate 25 cents.

Detached barns or stables and contents rated at \$1.50.

Barns over 400 feet from dwelling, used for storage only, rated at \$2.00.

School-houses and churches rated \$1.50.

Fruit Driers, \$4.00.

All buildings to be detached and not less than 60 feet from other exposures. 25 cents on \$100 added on all buildings less than 60 feet from exposures.

Contents to rate the same as the buildings in which they are kept.

An outbuilding (except a barn or stable) in which no fire is used, is not an exposure to a dwelling; but a barn or stable is an exposure to a dwelling, or a dwelling is an exposure to a barn or stable.

When two or more buildings adjoining or adjacent are occupied by the same person for a common purpose so that the buildings, although separated, constitute a single hazard, are not exposures to each other.

NOTICE TO AGENTS.

On diagram show all buildings insured, and all exposures within 100 feet; say just what each building is occupied for, and mark distances in figures between all buildings shown on Diagram.

CLASSIFICATION OF RISKS.

First-class, detached dwellings and contents for the purpose of assessments, in event of loss, be charged as basis rate on each \$100 of valuation, 50 cents.

DEFICIENCIES—

For one or more stovepipes extending through the roof, floor or side walls, add to basis rate, 50 cents.

For one or more terra cotta flues extending through the roof, floor or side walls, add to basis rate 10 cents.

For cloth lining for whole or part of any dwelling, unless closely tacked to wall and papered or painted, add to basis rate 25 cents.

Detached barns or stables and contents rated at \$1.50.

Barns over 400 feet from dwelling, used for storage only, rated at \$2.00.

School-houses and churches rated \$1.50.

Fruit Driers, \$4.00.

All buildings to be detached and not less than 60 feet from other exposures. 25 cents on \$100 added on all buildings less than 60 feet from exposures.

Contents to rate the same as the buildings in which they are kept.

An outbuilding (except a barn or stable) in which no fire is used, is not an exposure to a dwelling; but a barn or stable is an exposure to a dwelling, or a dwelling is an exposure to a barn or stable.

When two or more buildings adjoining or adjacent are occupied by the same person for a common purpose so that the buildings, although separated, constitute a single hazard, are not exposures to each other.

NOTICE TO AGENTS.

On diagram show all buildings insured, and all exposures within 100 feet; say just what each building is occupied for, and mark distances in figures between all buildings shown on Diagram.

Press of Brower Printing Co., San Jose, Cal.

CLASSIFICATION OF RISKS.

First-class, detached dwellings and contents for the purpose of assessments, in event of loss, be charged as basis rate on each \$100 of valuation, 50 cents.

DEFICIENCIES—

For one or more stovepipes extending through the roof, floor or side walls, add to basis rate, 50 cents.

For one or more terra cotta flues extending through the roof, floor or side walls, add to basis rate 10 cents.

For cloth lining for whole or part of any dwelling, unless closely tacked to wall and papered or painted, add to basis rate 25 cents.

Detached barns or stables and contents rated at \$1.50.

Barns over 400 feet from dwelling, used for storage only, rated at \$2.00.

School-houses and churches rated \$1.50.

Fruit Driers, \$4.00.

All buildings to be detached and not less than 60 feet from other exposures. 25 cents on \$100 added on all buildings less than 60 feet from exposures.

Contents to rate the same as the buildings in which they are kept.

An outbuilding (except a barn or stable) in which no fire is used, is not an exposure to a dwelling; but a barn or stable is an exposure to a dwelling, or a dwelling is an exposure to a barn or stable.

When two or more buildings adjoining or adjacent are occupied by the same person for a common purpose so that the buildings, although separated, constitute a single hazard, are not exposures to each other.

NOTICE TO AGENTS.

On diagram show all buildings insured, and all exposures within 100 feet; say just what each building is occupied for, and mark distances in figures between all buildings shown on Diagram.

CLASSIFICATION OF RISKS.

First-class, detached dwellings and contents for the purpose of assessments, in event of loss, be charged as basis rate on each \$100 of valuation, 50 cents.

DEFICIENCIES—

For one or more stovepipes extending through the roof, floor or side walls, add to basis rate, 50 cents.

For one or more terra cotta flues extending through the roof, floor or side walls, add to basis rate 10 cents.

For cloth lining for whole or part of any dwelling, unless closely tacked to wall and papered or painted, add to basis rate 25 cents.

Detached barns or stables and contents rated at \$1.50.

Barns over 400 feet from dwelling, used for storage only, rated at \$2.00.

School-houses and churches rated \$1.50.

Fruit Driers, \$4.00.

All buildings to be detached and not less than 60 feet from other exposures. 25 cents on \$100 added on all buildings less than 60 feet from exposures.

Contents to rate the same as the buildings in which they are kept.

An outbuilding (except a barn or stable) in which no fire is used, is not an exposure to a dwelling; but a barn or stable is an exposure to a dwelling, or a dwelling is an exposure to a barn or stable.

When two or more buildings adjoining or adjacent are occupied by the same person for a common purpose so that the buildings, although separated, constitute a single hazard, are not exposures to each other.

CLASSIFICATION OF RISKS.

First-class, detached dwellings and contents for the purpose of assessments, in event of loss, be charged as basis rate on each \$100 of valuation, 50 cents.

DEFICIENCIES—

For one or more stovepipes extending through the roof, floor or side walls, add to basis rate, 50 cents.

For one or more terra cotta flues extending through the roof, floor or side walls, add to basis rate 10 cents.

For cloth lining for whole or part of any dwelling, unless closely tacked to wall and papered or painted, add to basis rate 25 cents.

Detached barns or stables and contents rated at \$1.50.

Barns over 400 feet from dwelling, used for storage only, rated at \$2.00.

School-houses and churches rated \$1.50.

Fruit Driers, \$4.00.

All buildings to be detached and not less than 60 feet from other exposures. 25 cents on \$100 added on all buildings less than 60 feet from exposures.

Contents to rate the same as the buildings in which they are kept.

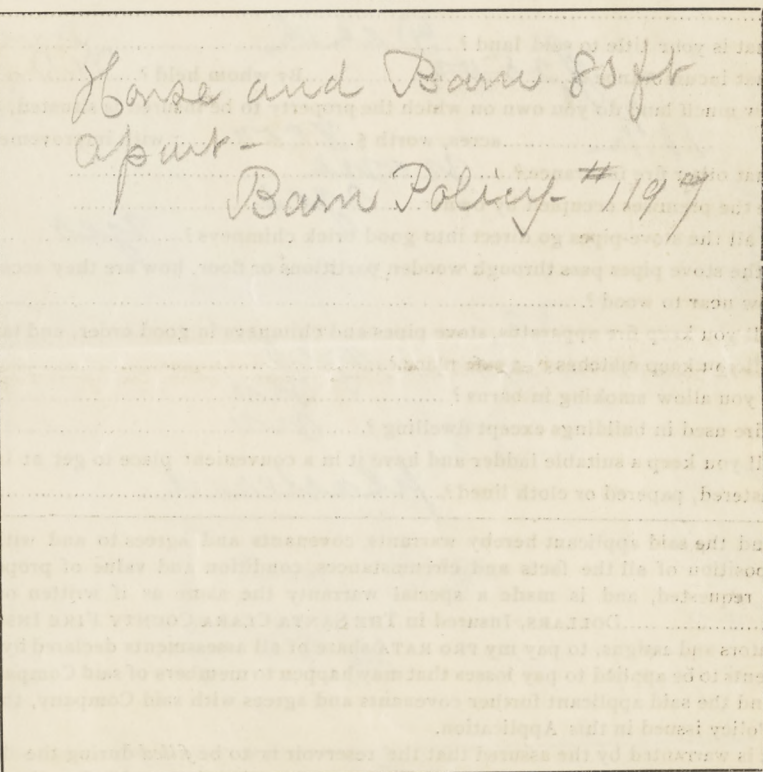

An outbuilding (except a barn or stable) in which no fire is used, is not an exposure to a dwelling; but a barn or stable is an exposure to a dwelling, or a dwelling is an exposure to a barn or stable.

When two or more buildings adjoining or adjacent are occupied by the same person for a common purpose so that the buildings, although separated, constitute a single hazard, are not exposures to each other.

NOTICE TO AGENTS.

On diagram show all buildings insured, and all exposures within 100 feet; say just what each building is occupied for, and mark distances in figures between all buildings shown on Diagram.

CLASSIFICATION OF RISKS.

First-class, detached dwellings and contents for the purpose of assessments, in event of loss, be charged as basis rate on each \$100 of valuation, 50 cents.

DEFICIENCIES—

For one or more stovepipes extending through the roof, floor or side walls, add to basis rate, 50 cents.

For one or more terra cotta flues extending through the roof, floor or side walls, add to basis rate 10 cents.

For cloth lining for whole or part of any dwelling, unless closely tacked to wall and papered or painted, add to basis rate 25 cents.

Detached barns or stables and contents rated at \$1.50.

Barns over 400 feet from dwelling, used for storage only, rated at \$2.00.

School-houses and churches rated \$1.50.

Fruit Driers, \$4.00.

All buildings to be detached and not less than 60 feet from other exposures. 25 cents on \$100 added on all buildings less than 60 feet from exposures.

Contents to rate the same as the buildings in which they are kept.

An outbuilding (except a barn or stable) in which no fire is used, is not an exposure to a dwelling; but a barn or stable is an exposure to a dwelling, or a dwelling is an exposure to a barn or stable.

When two or more buildings adjoining or adjacent are occupied by the same person for a common purpose so that the buildings, although separated, constitute a single hazard, are not exposures to each other.

NOTICE TO AGENTS.

On diagram show all buildings insured, and all exposures within 100 feet; say just what each building is occupied for, and mark distances in figures between all buildings shown on Diagram.

Press of Brewer Printing Co., San Jose, Cal.

CLASSIFICATION OF RISKS.

First-class, detached dwellings and contents for the purpose of assessments, in event of loss, be charged as basis rate on each \$100 of valuation, 50 cents.

DEFICIENCIES—

For one or more stovepipes extending through the roof, floor or side walls, add to basis rate, 50 cents.

For one or more terra cotta flues extending through the roof, floor or side walls, add to basis rate 10 cents.

For cloth lining for whole or part of any dwelling, unless closely tacked to wall and papered or painted, add to basis rate 25 cents.

Detached barns or stables and contents rated at \$1.50.

Barns over 400 feet from dwelling, used for storage only, rated at \$2.00.

School-houses and churches rated \$1.50.

Fruit Driers, \$4.00.

All buildings to be detached and not less than 60 feet from other exposures. 25 cents on \$100 added on all buildings less than 60 feet from exposures.

Contents to rate the same as the buildings in which they are kept.

An outbuilding (except a barn or stable) in which no fire is used, is not an exposure to a dwelling; but a barn or stable is an exposure to a dwelling, or a dwelling is an exposure to a barn or stable.

When two or more buildings adjoining or adjacent are occupied by the same person for a common purpose so that the buildings, although separated, constitute a single hazard, are not exposures to each other.

NOTICE TO AGENTS.

On diagram show all buildings insured, and all exposures within 100 feet; say just what each building is occupied for, and mark distances in figures between all buildings shown on Diagram.

APPLICATION

Of Mrs Thomas Dickson San Jose Postoffice, Santa Clara County, Calif., to
The Santa Clara County Fire Insurance Company, for indemnity and Insurance against loss or
 damage by fire, for the sum 15-15 DOLLARS, for the term
 of Five years, from the 21st day of August 1908, if approved by the Com-
 pany. It is understood that the value of the property is estimated by the applicant, and that the amount of insurance
 on property asked for does not exceed TWO-THIRDS of the cash value.

CLASSIFICATION OF RISKS.

First-class, detached dwellings and contents for the purpose of assessments, in event of loss, be charged as basis rate on each \$100 of valuation, 50 cents.

DEFICIENCIES—

For one or more stovepipes extending through the roof, floor or side walls, add to basis rate, 50 cents.

For one or more terra cotta flues extending through the roof, floor or side walls, add to basis rate 10 cents.

For cloth lining for whole or part of any dwelling, unless closely tacked to wall and papered or painted, add to basis rate 25 cents.

Detached barns or stables and contents rated at \$1.50.

Barns over 400 feet from dwelling, used for storage only, rated at \$2.00.

School-houses and churches rated \$1.50.

Fruit Driers, \$4.00.

All buildings to be detached and not less than 60 feet from other exposures. 25 cents on \$100 added on all buildings less than 60 feet from exposures.

Contents to rate the same as the buildings in which they are kept.

An outbuilding (except a barn or stable) in which no fire is used, is not an exposure to a dwelling; but a barn or stable is an exposure to a dwelling, or a dwelling is an exposure to a barn or stable.

When two or more buildings adjoining or adjacent are occupied by the same person for a common purpose so that the buildings, although separated, constitute a single hazard, are not exposures to each other.

Included Sept 2nd.

NOTICE TO AGENTS.

On diagram show all buildings insured, and all exposures within 100 feet; say just what each building is occupied for, and mark distances in figures between all buildings shown on Diagram.

An outbuilding (except a barn or stable) in which no fire is used, is not an exposure to a dwelling; but a barn or stable is an exposure to a dwelling, or a dwelling is an exposure to a barn or stable.

When two or more buildings adjoining or adjacent are occupied by the same person for a common purpose so that the buildings, although separated, constitute a single hazard, are not exposures to each other.

NOTICE TO AGENTS.

On diagram show all buildings insured, and all exposures within 100 feet; say just what each building is occupied for, and mark distances in figures between all buildings shown on Diagram.

APPLICATION

Of Gregory Marshall San Jose Postoffice, Santa Clara County, Calif., to
The Santa Clara County Fire Insurance Company, for indemnity and Insurance against loss or
 damage by fire, for the sum Sixteen Hundred and Twenty DOLLARS, for the term
 of Five years, from the 4th day of September 1908, if approved by the Com-
 pany. It is understood that the value of the property is estimated by the applicant, and that the amount of insurance
 on property asked for does not exceed TWO-THIRDS of the cash value.

House and Barn No. 2 being situate

1. What is your title to said land? Deed
2. What incumbrance? 2500 By whom held? Mrs Crothers
3. How much land do you own on which the property to be insured is situated, and what is its value? 30 acres, worth \$ 20,000 with improvements.
4. What other fire insurance? None
5. Are the premises occupied by owner? Yes
6. Do all the stove-pipes go direct into good brick chimneys? Yes
7. If the stove pipes pass through wooden partitions or floor, how are they secured?
8. How near to wood?
9. Will you keep fire apparatus, stove pipes and chimneys in good order, and take proper care of ashes and embers? Yes
10. Will you keep matches in a safe place? Yes
11. Do you allow smoking in barns? No
12. Is fire used in buildings except dwelling? No
13. Will you keep a suitable ladder and have it in a convenient place to get at in case of fire? Yes
14. Plastered, papered or cloth lined? Plastered

And the said applicant hereby warrants, covenants and agrees to and with said Company, that the foregoing is a full, just and
true exposition of all the facts and circumstances, condition and value of property to be Insured, and is offered as a basis of the in-
surance requested, and is made a special warranty the same as if written on the face of the Policy. For and in consideration
of 2200 DOLLARS, Insured in THE SANTA CLARA COUNTY FIRE INSURANCE COMPANY, I bind myself, heirs, executors, ad-
ministrators and assigns, to pay my PRO RATA share of all assessments declared by the Directors of said Company, within sixty days, said
assessments to be applied to pay losses that may happen to members of said Company, or incidental expenses, during the life of my Policy.

And the said applicant further covenants and agrees with said Company, that the By-Laws of the said Company shall form a part
of the Policy issued in this Application.

It is warranted by the assured that the reservoir is to be filled during the daylight only, when the stove is not in use, and that no
artificial light be permitted in the room when the reservoir is being filled, and no gasoline except that contained in said reservoirs shall
be kept within the building.

CLASSIFICATION OF RISKS.

First-class, detached dwellings and contents for the purpose of assessments, in event of loss, be charged as basis rate on each \$100 of valuation, 50 cents.

DEFICIENCIES—

For one or more stovepipes extending through the roof, floor or side walls, add to basis rate, 50 cents.

For one or more terra cotta flues extending through the roof, floor or side walls, add to basis rate 10 cents.

For cloth lining for whole or part of any dwelling, unless closely tacked to wall and papered or painted, add to basis rate 25 cents.

Detached barns or stables and contents rated at \$1.50.

Barns over 400 feet from dwelling, used for storage only, rated at \$2.00.

School-houses and churches rated \$1.50.

Fruit Driers, \$4.00.

All buildings to be detached and not less than 60 feet from other exposures. 25 cents on \$100 added on all buildings less than 60 feet from exposures.

Contents to rate the same as the buildings in which they are kept.

An outbuilding (except a barn or stable) in which no fire is used, is not an exposure to a dwelling; but a barn or stable is an exposure to a dwelling, or a dwelling is an exposure to a barn or stable.

When two or more buildings adjoining or adjacent are occupied by the same person for a common purpose so that the buildings, although separated, constitute a single hazard, are not exposures to each other.

NOTICE TO AGENTS.

On diagram show all buildings insured, and all exposures within 100 feet; say just what each building is occupied for, and mark distances in figures between all buildings shown on Diagram.

For cloth lining for whole or part of any dwelling, unless closely tacked to wall and papered or painted, add to basis rate 25 cents.

Detached barns or stables and contents rated at \$1.50.

Barns over 400 feet from dwelling, used for storage only, rated at \$2.00.

School-houses and churches rated \$1.50.

Fruit Driers, \$4.00.

All buildings to be detached and not less than 60 feet from other exposures. 25 cents on \$100 added on all buildings less than 60 feet from exposures.

Contents to rate the same as the buildings in which they are kept.

An outbuilding (except a barn or stable) in which no fire is used, is not an exposure to a dwelling; but a barn or stable is an exposure to a dwelling, or a dwelling is an exposure to a barn or stable.

When two or more buildings adjoining or adjacent are occupied by the same person for a common purpose so that the buildings, although separated, constitute a single hazard, are not exposures to each other.

CLASSIFICATION OF RISKS.

First-class, detached dwellings and contents for the purpose of assessments, in event of loss, be charged as basis rate on each \$100 of valuation, 50 cents.

DEFICIENCIES—

For one or more stovepipes extending through the roof, floor or side walls, add to basis rate, 50 cents.

For one or more terra cotta flues extending through the roof, floor or side walls, add to basis rate 10 cents.

For cloth lining for whole or part of any dwelling, unless closely tacked to wall and papered or painted, add to basis rate 25 cents.

Detached barns or stables and contents rated at \$1.50.

Barns over 400 feet from dwelling, used for storage only, rated at \$2.00.

School-houses and churches rated \$1.50.

Fruit Driers, \$4.00.

All buildings to be detached and not less than 60 feet from other exposures. 25 cents on \$100 added on all buildings less than 60 feet from exposures.

Contents to rate the same as the buildings in which they are kept.

An outbuilding (except a barn or stable) in which no fire is used, is not an exposure to a dwelling; but a barn or stable is an exposure to a dwelling, or a dwelling is an exposure to a barn or stable.

When two or more buildings adjoining or adjacent are occupied by the same person for a common purpose so that the buildings, although separated, constitute a single hazard, are not exposures to each other.

NOTICE TO AGENTS.

On diagram show all buildings insured, and all exposures within 100 feet; say just what each building is occupied for, and mark distances in figures between all buildings shown on Diagram.

Press of Brower Printing Co., San Jose, Cal.

CLASSIFICATION OF RISKS.

First-class, detached dwellings and contents for the purpose of assessments, in event of loss, be charged as basis rate on each \$100 of valuation, 50 cents.

DEFICIENCIES—

For one or more stovepipes extending through the roof, floor or side walls, add to basis rate, 50 cents.

For one or more terra cotta flues extending through the roof, floor or side walls, add to basis rate 10 cents.

For cloth lining for whole or part of any dwelling, unless closely tacked to wall and papered or painted, add to basis rate 25 cents.

Detached barns or stables and contents rated at \$1.50.

Barns over 400 feet from dwelling, used for storage only, rated at \$2.00.

School-houses and churches rated \$1.50.

Fruit Driers, \$4.00.

All buildings to be detached and not less than 60 feet from other exposures. 25 cents on \$100 added on all buildings less than 60 feet from exposures.

Contents to rate the same as the buildings in which they are kept.

An outbuilding (except a barn or stable) in which no fire is used, is not an exposure to a dwelling; but a barn or stable is an exposure to a dwelling, or a dwelling is an exposure to a barn or stable.

When two or more buildings adjoining or adjacent are occupied by the same person for a common purpose so that the buildings, although separated, constitute a single hazard, are not exposures to each other.

NOTICE TO AGENTS.

On diagram show all buildings insured, and all exposures within 100 feet; say just what each building is occupied for, and mark distances in figures between all buildings shown on Diagram.

Route Box 2

CLASSIFICATION OF RISKS.

First-class, detached dwellings and contents for the purpose of assessments, in event of loss, be charged as basis rate on each \$100 of valuation, 50 cents.

DEFICIENCIES—

For one or more stovepipes extending through the roof, floor or side walls, add to basis rate, 50 cents.

For one or more terra cotta flues extending through the roof, floor or side walls, add to basis rate 10 cents.

For cloth lining for whole or part of any dwelling, unless closely tacked to wall and papered or painted, add to basis rate 25 cents.

Detached barns or stables and contents rated at \$1.50.

Barns over 400 feet from dwelling, used for storage only, rated at \$2.00.

School-houses and churches rated \$1.50.

Fruit Driers, \$4.00.

All buildings to be detached and not less than 60 feet from other exposures. 25 cents on \$100 added on all buildings less than 60 feet from exposures.

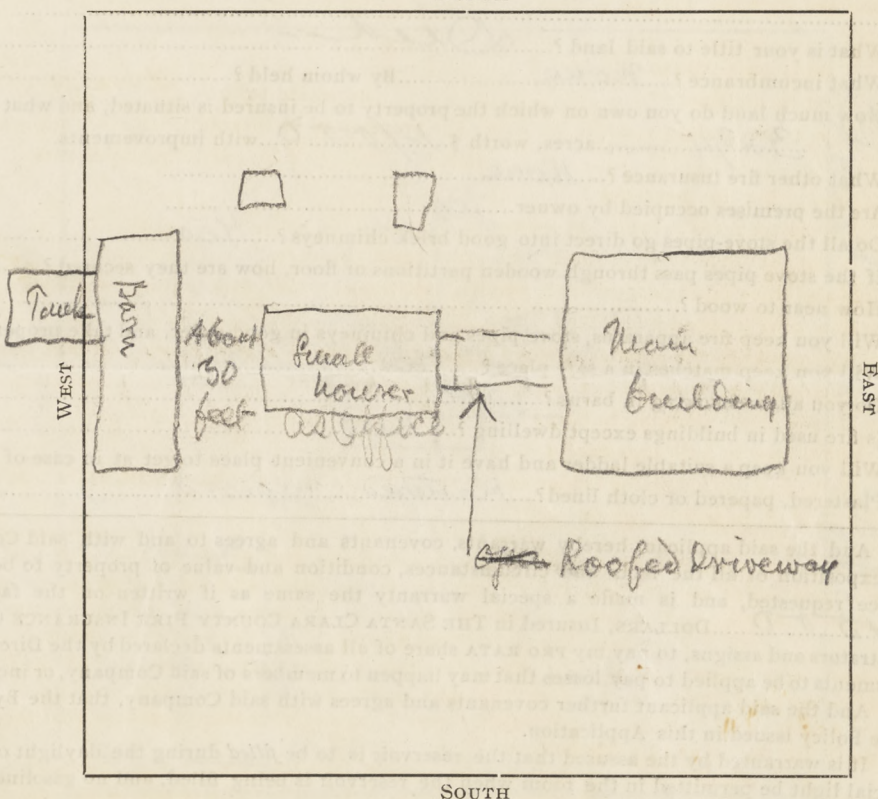

Contents to rate the same as the buildings in which they are kept.

An outbuilding (except a barn or stable) in which no fire is used, is not an exposure to a dwelling; but a barn or stable is an exposure to a dwelling, or a dwelling is an exposure to a barn or stable.

When two or more buildings adjoining or adjacent are occupied by the same person for a common purpose so that the buildings, although separated, constitute a single hazard, are not exposures to each other.

A. E. Shepard APPLICANT.

Paid by Mr. Shepard. Oct. 31, 1908.

A. E. Shepard, having died, and having deeded property
insured herein to his son, O. E. Shepard, he is now
deemed to be the insured.

CLASSIFICATION OF RISKS.

First-class, detached dwellings and contents for the purpose of assessments, in event of loss, be charged as basis rate on each \$100 of valuation, 50c.

DEFICIENCIES—

For one or more stovepipes extending through the roof, floor or side walls, add to basis rate, 50 cents.

For one or more terra cotta flues extending through roof, floor, or side walls, add to basis rate, 10 cents.

For cloth lining for whole or part of any dwelling, unless closely tacked to wall and papered or painted, add to basis rate, 25 cents.

Detached barns or stables and contents rated at \$1.50.

Barns over 400 feet from dwelling used for storage only, rated at \$2.00.

School-houses and churches rated at \$1.50.

Fruit Driers, \$4.00.

All buildings to be detached and not less than 60 feet from other exposures. 25 cents on \$100 added on all buildings less than 60 feet from exposures.

Contents to rate the same as the buildings in which they are kept.

An outbuilding (except a barn or stable) in which no fire is used, is not an exposure to a dwelling; but a barn or stable is an exposure to a dwelling, or a dwelling is an exposure to a barn or stable.

When two or more buildings adjoining or adjacent are occupied by the same person for a common purpose so that the buildings, although separated, constitute a single hazard, are not exposures to each other.

CLASSIFICATION OF RISKS.

First-class, detached dwellings and contents for the purpose of assessments, in event of loss, be charged as basis rate on each \$100 of valuation, 50 cents.

DEFICIENCIES—

For one or more stovepipes extending through the roof, floor or side walls, add to basis rate, 50 cents.

For one or more terra cotta flues extending through the roof, floor or side walls, add to basis rate 10 cents.

For cloth lining for whole or part of any dwelling, unless closely tacked to wall and papered or painted, add to basis rate 25 cents.

Detached barns or stables and contents rated at \$1.50.

Barns over 400 feet from dwelling, used for storage only, rated at \$2.00.

School-houses and churches rated \$1.50.

Fruit Driers, \$4.00.

All buildings to be detached and not less than 60 feet from other exposures. 25 cents on \$100 added on all buildings less than 60 feet from exposures.

Contents to rate the same as the buildings in which they are kept.

An outbuilding (except a barn or stable) in which no fire is used, is not an exposure to a dwelling; but a barn or stable is an exposure to a dwelling, or a dwelling is an exposure to a barn or stable.

When two or more buildings adjoining or adjacent are occupied by the same person for a common purpose so that the buildings, although separated, constitute a single hazard, are not exposures to each other.

CLASSIFICATION OF RISKS.

First-class, detached dwellings and contents for the purpose of assessments, in event of loss, be charged as basis rate on each \$100 of valuation, 50 cents.

DEFICIENCIES—

For one or more stovepipes extending through the roof, floor or side walls, add to basis rate, 50 cents.

For one or more terra cotta flues extending through the roof, floor or side walls, add to basis rate 10 cents.

For cloth lining for whole or part of any dwelling, unless closely tacked to wall and papered or painted, add to basis rate 25 cents.

Detached barns or stables and contents rated at \$1.50.

Barns over 400 feet from dwelling, used for storage only, rated at \$2.00.

School-houses and churches rated \$1.50.

Fruit Driers, \$4.00.

All buildings to be detached and not less than 60 feet from other exposures. 25 cents on \$100 added on all buildings less than 60 feet from exposures.

Contents to rate the same as the buildings in which they are kept.

An outbuilding (except a barn or stable) in which no fire is used, is not an exposure to a dwelling; but a barn or stable is an exposure to a dwelling, or a dwelling is an exposure to a barn or stable.

When two or more buildings adjoining or adjacent are occupied by the same person for a common purpose so that the buildings, although separated, constitute a single hazard, are not exposures to each other.

First-class, detached dwellings and contents for the purpose of assessments, in event of loss, be charged as basis rate on each \$100 of valuation, 50 cents.

DEFICIENCIES—

For one or more stovepipes extending through the roof, floor or side walls, add to basis rate, 50 cents.

For one or more terra cotta flues extending through the roof, floor or side walls, add to basis rate 10 cents.

For cloth lining for whole or part of any dwelling, unless closely tacked to wall and papered or painted, add to basis rate 25 cents.

Detached barns or stables and contents rated at \$1.50.

Barns over 400 feet from dwelling, used for storage only, rated at \$2.00.

School-houses and churches rated \$1.50.

Fruit Driers, \$4.00.

All buildings to be detached and not less than 60 feet from other exposures. 25 cents on \$100 added on all buildings less than 60 feet from exposures.

Contents to rate the same as the buildings in which they are kept.

An outbuilding (except a barn or stable) in which no fire is used, is not an exposure to a dwelling; but a barn or stable is an exposure to a dwelling, or a dwelling is an exposure to a barn or stable.

When two or more buildings adjoining or adjacent are occupied by the same person for a common purpose so that the buildings, although separated, constitute a single hazard, are not exposures to each other.

mailed - Nov. 21, 08

NOTICE TO AGENTS.

On diagram show all buildings insured, and all exposures within 100 feet; say just what each building is occupied for, and mark distances in figures between all buildings shown on Diagram.

JOHN PERRIN
DANIEL K. DRAKE
JAMES SHELDON RILEY
MEMBER LOS ANGELES STOCK EXCHANGE
CABLE ADDRESS PERDRALEY LOS ANGELES

July 31, 1913.

Mr. John Perrin is now in the East on account of work of the Currency Commission of the American Bankers Association in connection with the banking bill recently introduced in Congress at the instance of the Administration.

At the request of the editor of the Indianapolis Star he prepared the article which we have reprinted in pamphlet form. We are confident of keen interest in his analysis of four important features of the measure, which is arousing such vital discussion throughout the country.

As a graduate of Yale, Mr. Perrin specialized in economics. To mercantile experience he added banking experience as organizer and president of the largest bank in Indiana.

He has been a member of the Currency Commission of the American Bankers Association since it was organized in 1906 to bring about banking reform.

After the deliberations of the Currency Commission upon this measure, Mr. Perrin was one of four chosen to appear at a conference with the President, the Secretary of the Treasury, Senator Owen, Chairman of the Senate Committee, and Hon. Carter Glass, Chairman of the House Committee.

He therefore speaks with intimate knowledge.

Yours respectfully,

PERRIN, DRAKE & RILEY, Inc.

CLASSIFICATION OF RISKS.

First-class, detached dwellings and contents for the purpose of assessments, in event of loss, be charged as basis rate on each \$100 of valuation, 50 cents.

DEFICIENCIES—

For one or more stovepipes extending through the roof, floor or side walls, add to basis rate, 50 cents.

For one or more terra cotta flues extending through the roof, floor or side walls, add to basis rate 10 cents.

For cloth lining for whole or part of any dwelling, unless closely tacked to wall and papered or painted, add to basis rate 25 cents.

Detached barns or stables and contents rated at \$1.50.

Barns over 400 feet from dwelling, used for storage only, rated at \$2.00.

School-houses and churches rated \$1.50.

Fruit Driers, \$4.00.

All buildings to be detached and not less than 60 feet from other exposures. 25 cents on \$100 added on all buildings less than 60 feet from exposures.

Contents to rate the same as the buildings in which they are kept.

An outbuilding (except a barn or stable) in which no fire is used, is not an exposure to a dwelling; but a barn or stable is an exposure to a dwelling, or a dwelling is an exposure to a barn or stable.

When two or more buildings adjoining or adjacent are occupied by the same person for a common purpose so that the buildings, although separated, constitute a single hazard, are not exposures to each other.

The stone house mentioned in this application is being used as a dwelling at the present time, and there is a bed room in the upper story to be used permanently as a bed room. At present there is a stove pipe through the side of the stone house 2 inches from wood, after the house is completed this will be done away with.

It is understood in case of fire before house is finished loss is to be adjusted according to amount of work done on house at the time of loss.

CLASSIFICATION OF RISKS.

First-class, detached dwellings and contents for the purpose of assessments, in event of loss, be charged as basis rate on each \$100 of valuation, 50 cents.

DEFICIENCIES—

For one or more stovepipes extending through the roof, floor or side walls, add to basis rate, 50 cents.

For one or more terra cotta flues extending through the roof, floor or side walls, add to basis rate 10 cents.

For cloth lining for whole or part of any dwelling, unless closely tacked to wall and papered or painted, add to basis rate 25 cents.

Detached barns or stables and contents rated at \$1.50.

Barns over 400 feet from dwelling, used for storage only, rated at \$2.00.

School-houses and churches rated \$1.50.

Fruit Driers, \$4.00.

All buildings to be detached and not less than 60 feet from other exposures. 25 cents on \$100 added on all buildings less than 60 feet from exposures.

Contents to rate the same as the buildings in which they are kept.

An outbuilding (except a barn or stable) in which no fire is used, is not an exposure to a dwelling; but a barn or stable is an exposure to a dwelling, or a dwelling is an exposure to a barn or stable.

When two or more buildings adjoining or adjacent are occupied by the same person for a common purpose so that the buildings, although separated, constitute a single hazard, are not exposures to each other.

CLASSIFICATION OF RISKS.

First-class, detached dwellings and contents for the purpose of assessments, in event of loss, be charged as basis rate on each \$100 of valuation, 50 cents.

DEFICIENCIES—

For one or more stovepipes extending through the roof, floor or side walls, add to basis rate, 50 cents.

For one or more terra cotta flues extending through the roof, floor or side walls, add to basis rate 10 cents.

For cloth lining for whole or part of any dwelling, unless closely tacked to wall and papered or painted, add to basis rate 25 cents.

Detached barns or stables and contents rated at \$1.50.

Barns over 400 feet from dwelling, used for storage only, rated at \$2.00.

School-houses and churches rated \$1.50.

Fruit Driers, \$4.00.

All buildings to be detached and not less than 60 feet from other exposures. 25 cents on \$100 added on all buildings less than 60 feet from exposures.

Contents to rate the same as the buildings in which they are kept.

An outbuilding (except a barn or stable) in which no fire is used, is not an exposure to a dwelling; but a barn or stable is an exposure to a dwelling, or a dwelling is an exposure to a barn or stable.

When two or more buildings adjoining or adjacent are occupied by the same person for a common purpose so that the buildings, although separated, constitute a single hazard, are not exposures to each other.

CLASSIFICATION OF RISKS.

First-class, detached dwellings and contents for the purpose of assessments, in event of loss, be charged as basis rate on each \$100 of valuation, 50 cents.

DEFICIENCIES—

For one or more stovepipes extending through the roof, floor or side walls, add to basis rate, 50 cents.

For one or more terra cotta flues extending through the roof, floor or side walls, add to basis rate 10 cents.

For cloth lining for whole or part of any dwelling, unless closely tacked to wall and papered or painted, add to basis rate 25 cents.

Detached barns or stables and contents rated at \$1.50.

Barns over 400 feet from dwelling, used for storage only, rated at \$2.00.

School-houses and churches rated \$1.50.

Fruit Driers, \$4.00.

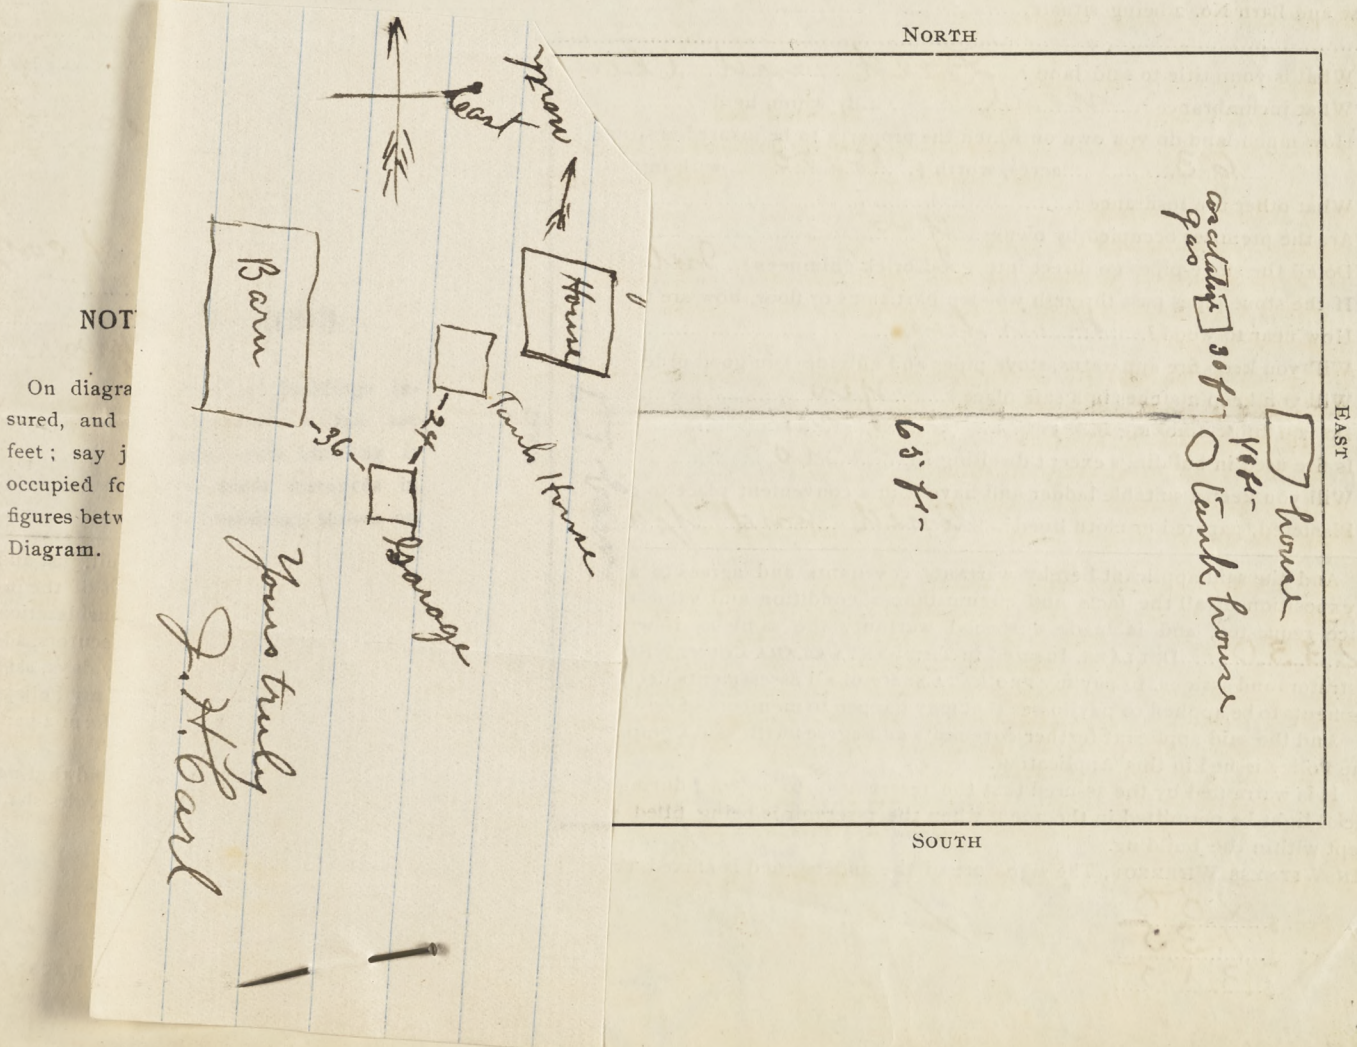

All buildings to be detached and not less than 60 feet from other exposures. 25 cents on \$100 added on all buildings less than 60 feet from exposures.

Contents to rate the same as the buildings in which they are kept.

An outbuilding (except a barn or stable) in which no fire is used, is not an exposure to a dwelling; but a barn or stable is an exposure to a dwelling, or a dwelling is an exposure to a barn or stable.

When two or more buildings adjoining or adjacent are occupied by the same person for a common purpose so that the buildings, although separated, constitute a single hazard, are not exposures to each other.

NOTICE TO AGENTS.

On diagram show all buildings insured, and all exposures within 100 feet; say just what each building is occupied for, and mark distances in figures between all buildings shown on Diagram.

CLASSIFICATION OF RISKS.

First-class, detached dwellings and contents for the purpose of assessments, in event of loss, be charged as basis rate on each \$100 of valuation, 50 cents.

DEFICIENCIES—

For one or more stovepipes extending through the roof, floor or side walls, add to basis rate, 50 cents.

For one or more terra cotta flues extending through the roof, floor or side walls, add to basis rate 10 cents.

For cloth lining for whole or part of any dwelling, unless closely tacked to wall and papered or painted, add to basis rate 25 cents.

Detached barns or stables and contents rated at \$1.50.

Barns over 400 feet from dwelling, used for storage only, rated at \$2.00.

School-houses and churches rated \$1.50.

Fruit Driers, \$4.00.

All buildings to be detached and not less than 60 feet from other exposures. 25 cents on \$100 added on all buildings less than 60 feet from exposures.

Contents to rate the same as the buildings in which they are kept.

An outbuilding (except a barn or stable) in which no fire is used, is not an exposure to a dwelling; but a barn or stable is an exposure to a dwelling, or a dwelling is an exposure to a barn or stable.

When two or more buildings adjoining or adjacent are occupied by the same person for a common purpose so that the buildings, although separated, constitute a single hazard, are not exposures to each other.

NOTICE TO AGENTS.

On diagram show all buildings insured, and all exposures within 100 feet; say just what each building is occupied for, and mark distances in figures between all buildings shown on Diagram.

Oct 1, 1910.

Mr. Butts had reported that he now kept automobile in barn; also, in other side of barn, in one corner a closed iron tank containing about 40 gallons of gasoline, from which he draws in daytime.

When reported to Executive Board, it was decided that Mr. Butts be asked to move tank of gasoline at least 60 ft from all buildings insured, or cancel Policy. Assured, in obeying this request Canceled barn, and adjacent property.

NOTICE TO AGENTS.

On diagram show all buildings insured, and all exposures within 100 feet; say just what each building is occupied for, and mark distances in figures between all buildings shown on Diagram.

For one or more stovepipes extending through the roof, floor or side walls, add to basis rate, 50 cents.

For one or more terra cotta flues extending through the roof, floor or side walls, add to basis rate 10 cents.

For cloth lining for whole or part of any dwelling, unless closely tacked to wall and papered or painted, add to basis rate 25 cents.

Detached barns or stables and contents rated at \$1.50.

Barns over 400 feet from dwelling, used for storage only, rated at \$2.00.

School-houses and churches rated \$1.50.

Fruit Drifters, \$4.00.

All buildings to be detached and not less than 60 feet from other exposures. 25 cents on \$100 added on all buildings less than 60 feet from exposures.

Contents to rate the same as the buildings in which they are kept.

An outbuilding (except a barn or stable) in which no fire is used, is not an exposure to a dwelling; but a barn or stable is an exposure to a dwelling, or a dwelling is an exposure to a barn or stable.

When two or more buildings adjoining or adjacent are occupied by the same person for a common purpose so that the buildings, although separated, constitute a single hazard, are not exposures to each other.

1. What is your title to said land? Deed
2. What incumbrance? \$1500 By whom held? M. Jackson
3. How much land do you own on which the property to be insured is situated, and what is its value?
About 40 acres, worth \$25000 with improvements.
4. What other fire insurance? None
5. Are the premises occupied by owner? Yes
6. Do all the stove-pipes go direct into good brick chimneys? Yes
7. If the stove pipes pass through wooden partitions or floor, how are they secured? Yes
8. How near to wood? Yes
9. Will you keep fire apparatus, stove pipes and chimneys in good order, and take proper care of ashes and embers? Yes
10. Will you keep matches in a safe place? Yes
11. Do you allow smoking in barns? No
12. Is fire used in buildings except dwelling? No
13. Will you keep a suitable ladder and have it in a convenient place to get at in case of fire? Yes
14. Plastered, papered or cloth lined? Plastered

And the said applicant hereby warrants, covenants and agrees to and with said Company, that the foregoing is a full, just and
true exposition of all the facts and circumstances, condition and value of property to be Insured, and is offered as a basis of the in-
surance requested, and is made a special warranty the same as if written on the face of the Policy. For and in consideration
of 2700 DOLLARS, Insured in THE SANTA CLARA COUNTY FIRE INSURANCE COMPANY, I bind myself, heirs, executors, ad-
ministrators and assigns, to pay my PRO RATA share of all assessments declared by the Directors of said Company, within sixty days, said
assessments to be applied to pay losses that may happen to members of said Company, or incidental expenses, during the life of my Policy.

And the said applicant further covenants and agrees with said Company, that the By-Laws of the said Company shall form a part
of the Policy issued in this Application.

It is warranted by the assured that the reservoir is to be filled during the daylight only, when the stove is not in use, and that no
artificial light be permitted in the room when the reservoir is being filled, and no gasoline except that contained in said reservoirs shall
be kept within the building.

First-class, detached dwellings and, contents for the purpose of assessments, in event of loss, be charged as basis rate on each \$100 of valuation, 50 cents.

DEFICIENCIES—

For one or more stovepipes extending through the roof, floor or side walls, add to basis rate, 50 cents.

For one or more terra cotta flues extending through the roof, floor or side walls, add to basis rate 10 cents.

For cloth lining for whole or part of any dwelling, unless closely tacked to wall and papered or painted, add to basis rate 25 cents.

Detached barns or stables and contents rated at \$1.50.

Barns over 400 feet from dwelling, used for storage only, rated at \$2.00.

School-houses and churches rated \$1.50.

Fruit Driers, \$4.00.

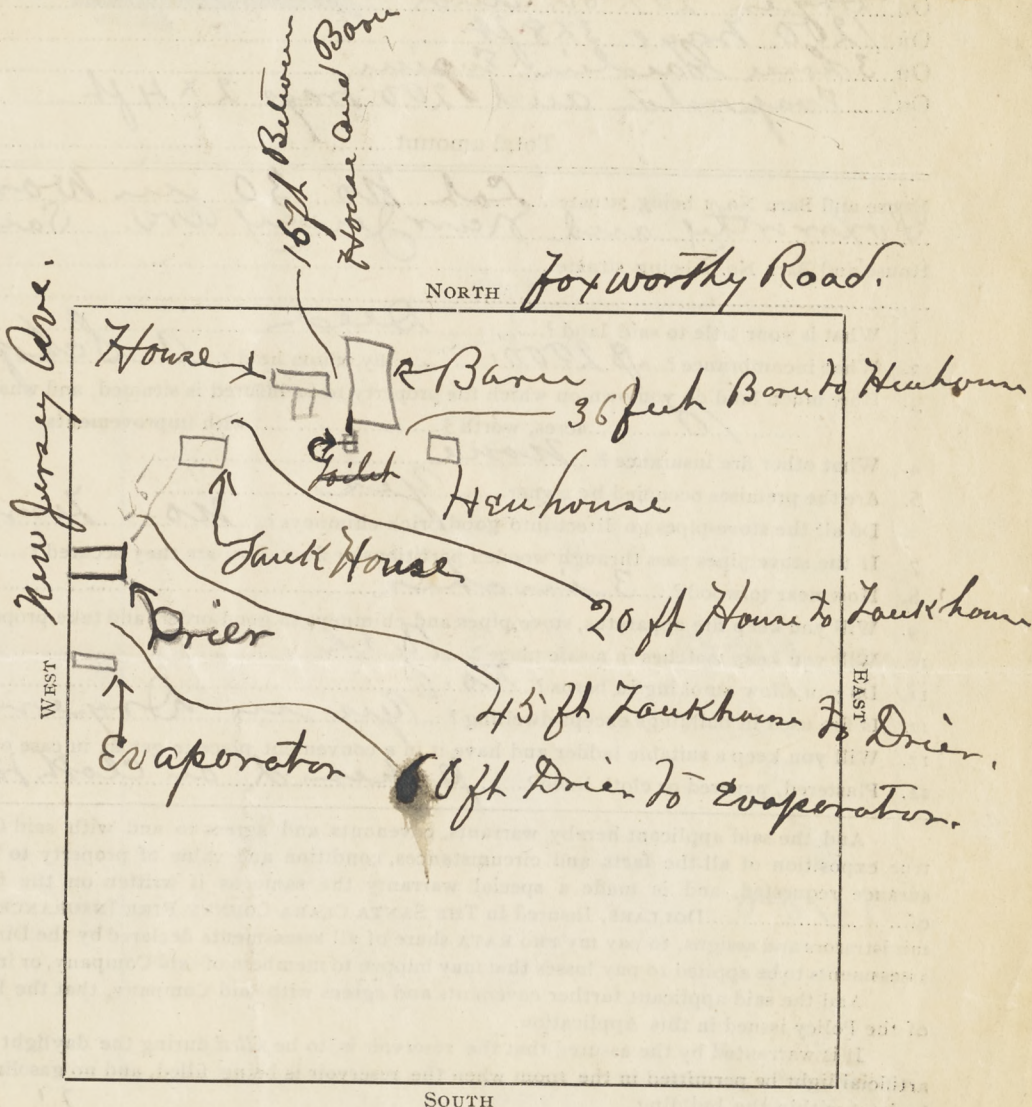

All buildings to be detached and not less than 60 feet from other exposures, 25 cents on \$100 added on all buildings less than 60 feet from exposures.

Contents to rate the same as the buildings in which they are kept

An outbuilding (except a barn or stable) in which no fire is used, is not an exposure to a dwelling; but a barn or stable is an exposure to a dwelling, or a dwelling is an exposure to a barn or stable.

When two or more buildings adjoining or adjacent are occupied by the same person for a common purpose so that the buildings, although separated, constitute a single hazard, are not exposures to each other.

On diagram show all buildings insured, and all exposures within 100 feet; say just what each building is occupied for, and mark distances in figures between all buildings shown on Diagram.

J. C. McIlwain.

Morgan Hill
Post Office,
Santa Clara County, Cal.

Amount Insured, = = \$ *1878.00*

CLASSIFICATION OF RISKS.

First-class, detached dwellings and contents for the purpose of assessments, in event of loss, be charged as basis rate on each \$100 of valuation, 50 cents.

DEFICIENCIES—

For one or more stovepipes extending through the roof, floor or side walls, add to basis rate, 50 cents.

For one or more terra cotta flues extending through the roof, floor or side walls, add to basis rate 10 cents.

For cloth lining for whole or part of any dwelling, unless closely tacked to wall and papered or painted, add to basis rate 25 cents.

Detached barns or stables and contents rated at \$1.50.

Barns over 400 feet from dwelling, used for storage only, rated at \$2.00.

School-houses and churches rated \$1.50.

Fruit Driers, \$4.00.

All buildings to be detached and not less than 60 feet from other exposures. 25 cents on \$100 added on all buildings less than 60 feet from exposures.

Contents to rate the same as the buildings in which they are kept.

An outbuilding (except a barn or stable) in which no fire is used, is not an exposure to a dwelling; but a barn or stable is an exposure to a dwelling, or a dwelling is an exposure to a barn or stable.

When two or more buildings adjoining or adjacent are occupied by the same person for a common purpose so that the buildings, although separated, constitute a single hazard, are not exposures to each other.

NOTICE TO AGENTS.

On diagram show all buildings insured, and all exposures within 100 feet; say just what each building is occupied for, and mark distances in figures between all buildings shown on Diagram.

Yes I want my Policyⁿ 990, which expires Apr 6th renewed, and would like to add to it an insurance on my barn, of about \$200 more, that is what my neighbors tell me would be right. it is 102 ft from the house size 45 ft X 18 ft. 12 ft high at eaves. I keep horse, buggy in the barn & many other things. I intended to go to San Jose and attend to this but it is not convenient to do so, so please make policy out and send me the bill and I will remit the amount necessary. Yours respectfully

Dear Miss Taylor. -
We have
decided that it will
be best to have the
same company in-
sure the trunk's
horse and harness
that has insured the
main horse and
trap horse. Hence
we will not do any-
thing further, at present,

1. What is your title to said land? deed
 2. What incumbrance? By whom held?
 3. How much land do you own on which the property to be insured is situated, and what is its value?
about 12 acres, worth \$ 8000 with improvements.
 4. What other fire insurance? none
 5. Are the premises occupied by owner? yes
 6. Do all the stove-pipes go direct into good brick chimneys? yes
 7. If the stove pipes pass through wooden partitions or floor, how are they secured?
 8. How near to wood?
 9. Will you keep fire apparatus, stove pipes and chimneys in good order, and take proper care of ashes and embers? yes
 10. Will you keep matches in a safe place? yes
 11. Do you allow smoking in barns? no
 12. Is fire used in buildings except dwelling? no
 13. Will you keep a suitable ladder and have it in a convenient place to get at in case of fire? yes
 14. Plastered, papered or cloth lined? plaster

And the said applicant hereby warrants, covenants and agrees to and with said Company, that the foregoing is a full, just and
true exposition of all the facts and circumstances, condition and value of property to be Insured, and is offered as a basis of the in-
surance requested, and is made a special warranty the same as if written on the face of the Policy. For and in consideration
of 1666 DOLLARS, Insured in THE SANTA CLARA COUNTY FIRE INSURANCE COMPANY, I bind myself, heirs, executors, ad-
ministrators and assigns, to pay my PRO RATA share of all assessments declared by the Directors of said Company, within sixty days, said
assessments to be applied to pay losses that may happen to members of said Company, or incidental expenses, during the life of my Policy.

And the said applicant further covenants and agrees with said Company, that the By-Laws of the said Company shall form a part
of the Policy issued in this Application.

It is warranted by the assured that the reservoir is to be filled during the daylight only, when the stove is not in use, and that no
artificial light be permitted in the room when the reservoir is being filled, and no gasoline except that contained in said reservoirs shall
be kept within the building.

CLASSIFICATION OF RISKS.

First-class, detached dwellings and contents for the purpose of assessments, in event of loss, be charged as basis rate on each \$100 of valuation, 50 cents.

DEFICIENCIES—

For one or more stovepipes extending through the roof, floor or side walls, add to basis rate, 50 cents.

For one or more terra cotta flues extending through the roof, floor or side walls, add to basis rate 10 cents.

For cloth lining for whole or part of any dwelling, unless closely tacked to wall and papered or painted, add to basis rate 25 cents.

Detached barns or stables and contents rated at \$1.50.

Barns over 400 feet from dwelling, used for storage only, rated at \$2.00.

School-houses and churches rated \$1.50.

Fruit Driers, \$4.00.

All buildings to be detached and not less than 60 feet from other exposures. 25 cents on \$100 added on all buildings less than 60 feet from exposures.

Contents to rate the same as the buildings in which they are kept.

An outbuilding (except a barn or stable) in which no fire is used, is not an exposure to a dwelling; but a barn or stable is an exposure to a dwelling, or a dwelling is an exposure to a barn or stable.

When two or more buildings adjoining or adjacent are occupied by the same person for a common purpose so that the buildings, although separated, constitute a single hazard, are not exposures to each other.

1. What is your title to said land? Deed
2. What incumbrance? none By whom held? none
3. How much land do you own on which the property to be insured is situated, and what is its value?
24 acres, worth \$12000 with improvements.
4. What other fire insurance? none
5. Are the premises occupied by owner? yes
6. Do all the stove-pipes go direct into good brick chimneys? yes
7. If the stove pipes pass through wooden partitions or floor, how are they secured? yes
8. How near to wood? yes
9. Will you keep fire apparatus, stove pipes and chimneys in good order, and take proper care of ashes and embers? yes
10. Will you keep matches in a safe place? yes
11. Do you allow smoking in barns? no
12. Is fire used in buildings except dwelling? no
13. Will you keep a suitable ladder and have it in a convenient place to get at in case of fire? yes
14. Plastered, papered or cloth lined? Plastered

And the said applicant hereby warrants, covenants and agrees to and with said Company, that the foregoing is a full, just and
true exposition of all the facts and circumstances, condition and value of property to be Insured, and is offered as a basis of the in-
surance requested, and is made a special warranty the same as if written on the face of the Policy. For and in consideration
of 1600 DOLLARS, Insured in THE SANTA CLARA COUNTY FIRE INSURANCE COMPANY, I bind myself, heirs, executors, ad-
ministrators and assigns, to pay my PRO RATA share of all assessments declared by the Directors of said Company, within sixty days, said
assessments to be applied to pay losses that may happen to members of said Company, or incidental expenses, during the life of my Policy.

And the said applicant further covenants and agrees with said Company, that the By-Laws of the said Company shall form a part
of the Policy issued in this Application.

It is warranted by the assured that the reservoir is to be filled during the daylight only, when the stove is not in use, and that no
artificial light be permitted in the room when the reservoir is being filled, and no gasoline except that contained in said reservoirs shall
be kept within the building.

IN WITNESS WHEREOF, The signature of the undersigned is affixed, this 17th day of April 1909.

Press of Brower Printing Co., San Jose, Cal.

CLASSIFICATION OF RISKS.

First-class, detached dwellings and contents for the purpose of assessments, in event of loss, be charged as basis rate on each \$100 of valuation, 50 cents.

DEFICIENCIES—

For one or more stovepipes extending through the roof, floor or side walls, add to basis rate, 50 cents.

For one or more terra cotta flues extending through the roof, floor or side walls, add to basis rate 10 cents.

For cloth lining for whole or part of any dwelling, unless closely tacked to wall and papered or painted, add to basis rate 25 cents.

Detached barns or stables and contents rated at \$1.50.

Barns over 400 feet from dwelling, used for storage only, rated at \$2.00.

School-houses and churches rated \$1.50.

Fruit Driers, \$4.00.

All buildings to be detached and not less than 60 feet from other exposures. 25 cents on \$100 added on all buildings less than 60 feet from exposures.

Contents to rate the same as the buildings in which they are kept.

An outbuilding (except a barn or stable) in which no fire is used, is not an exposure to a dwelling; but a barn or stable is an exposure to a dwelling, or a dwelling is an exposure to a barn or stable.

When two or more buildings adjoining or adjacent are occupied by the same person for a common purpose so that the buildings, although separated, constitute a single hazard, are not exposures to each other.

NOTICE TO AGENTS.

On diagram show all buildings insured, and all exposures within 100 feet; say just what each building is occupied for, and mark distances in figures between all buildings shown on Diagram.

 true exposition of all the facts and circumstances, condition and value of property to be Insured, and is offered as a basis of the in-
 surance requested, and is made a special warranty the same as if written on the face of the Policy. For and in consideration
 of 1160 DOLLARS, Insured in THE SANTA CLARA COUNTY FIRE INSURANCE COMPANY, I bind myself, heirs, executors, ad-
 ministrators and assigns, to pay my PRO RATA share of all assessments declared by the Directors of said Company, within sixty days, said
 assessments to be applied to pay losses that may happen to members of said Company, or incidental expenses, during the life of my Policy.

And the said applicant further covenants and agrees with said Company, that the By-Laws of the said Company shall form a part
 of the Policy issued in this Application.

It is warranted by the assured that the reservoir is to be filled during the daylight only, when the stove is not in use, and that no
 artificial light be permitted in the room when the reservoir is being filled, and no gasoline except that contained in said reservoirs shall
 be kept within the building.

CLASSIFICATION OF RISKS.

First-class, detached dwellings and contents for the purpose of assessments, in event of loss, be charged as basis rate on each \$100 of valuation, 50 cents.

DEFICIENCIES—

For one or more stovepipes extending through the roof, floor or side walls, add to basis rate, 50 cents.

For one or more terra cotta flues extending through the roof, floor or side walls, add to basis rate 10 cents.

For cloth lining for whole or part of any dwelling, unless closely tacked to wall and papered or painted, add to basis rate 25 cents.

Detached barns or stables and contents rated at \$1.50.

Barns over 400 feet from dwelling, used for storage only, rated at \$2.00.

School-houses and churches rated \$1.50.

Fruit Driers, \$4.00.

All buildings to be detached and not less than 60 feet from other exposures. 25 cents on \$100 added on all buildings less than 60 feet from exposures.

Contents to rate the same as the buildings in which they are kept.

An outbuilding (except a barn or stable) in which no fire is used, is not an exposure to a dwelling; but a barn or stable is an exposure to a dwelling, or a dwelling is an exposure to a barn or stable.

When two or more buildings adjoining or adjacent are occupied by the same person for a common purpose so that the buildings, although separated, constitute a single hazard, are not exposures to each other.

NOTICE TO AGENTS.

On diagram show all buildings insured, and all exposures within 100 feet; say just what each building is occupied for, and mark distances in figures between all buildings shown on Diagram.

Classification of Risks

First class dwellings and contents detached;
basis rate, 10c on \$100.

DEFICIENCIES

1. One or more terra-cotta flues, extending through roof, floor or side walls, adds one fifth to basis rate; Rate, 12c on \$100.
2. One or more stove pipes, extending through roof, floor or side walls, doubles basis rate; Rate 20c on \$100.

3. Cloth lining for whole or any part of dwelling, unless closely tacked to boards, and papered or painted, adds $\frac{1}{2}$ to basis rate; Rate, 15c on \$100.
4. Exposure (dwelling less than 60 feet from buildings classed as exposures) adds $\frac{1}{2}$ to basis rate; Rate 15c on \$100.

Exposure and terra-cotta flue..... Rate 17c on \$100.
Exposure and stove-pipe Rate 25c on \$100.
Exposure and cloth lining Rate 20c on \$100.

Galvanized iron flues, incased in cement, or in larger flues with air chamber between, are classed with brick chimney, and rate as first-class. Tank houses if near dwelling, rate with it. If close to barn, rate with barn.

Barns or stables, detached and their contents, rate at twice a dwelling; Rate 20c on \$100.

Barns, (Exposure), rate $2\frac{1}{2}$ times basis rate; Rate, 25c on \$100.

Fruit houses and Fruit driers (private), sheds, shops, store houses, and other out-buildings, detached. Rate 20c on \$100.

Dairies and cheese factories; Rate 20c on \$100.

Steam engines, Boilers, etc. Rate 40c on \$100.

Fruit driers, 80c on \$100.

School houses and Churches, detached; Rate, 20c on \$100.

Contents to rate same as buildings in which they are kept.

EXPOSURES

An out-building, except a barn or stable, in which no fire is used, is not an exposure to a dwelling, but a barn or stable is an exposure to a dwelling, and a dwelling is an exposure to a barn or stable.

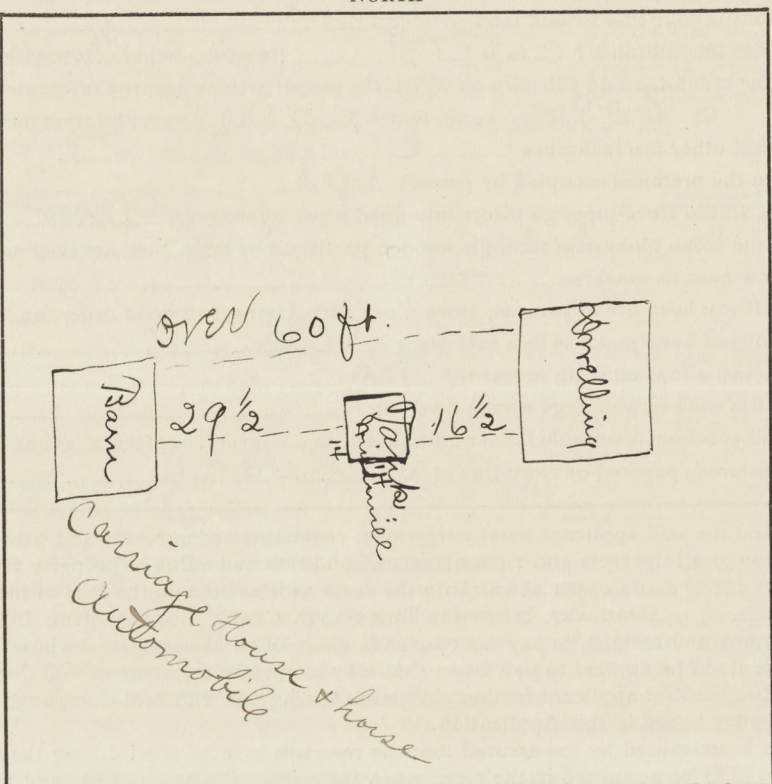

When two or more buildings, adjoining or adjacent, are occupied by the same person for a common purpose, so that the buildings, though separated, constitute a single hazard, they are not exposures to each other.

House and Barn No. 1 being situated on Penitencia Fork Road - On South side be-
tween Capital Ave and White Road East of San Jose, Santa Clara Co., Cal.
House and Barn No. 2 being situate.....

1. What is your title to said land? Deed
2. What incumbrance? None By whom held? James A. Blewett & L. Moody
3. How much land do you own on which the property to be insured is situated, and what is its value?
8.34 acres, worth \$ 1750 with improvements. Good payable Nov. 12, 1913.
4. What other fire insurance? None
5. Are the premises occupied by owner? Yes
6. Do all the stove-pipes go direct into good brick chimneys? Yes
7. If the stove pipes pass through wooden partitions or floor, how are they secured? Yes
8. How near to wood? Yes
9. Will you keep fire apparatus, stove pipes and chimneys in good order, and take proper care of ashes and embers? Yes
10. Will you keep matches in a safe place? Yes
11. Do you allow smoking in barns? no
12. Is fire used in buildings except dwelling? in Dryer Shed
13. Will you keep a suitable ladder and have it in a convenient place to get at in case of fire? Yes
14. Plastered, papered or cloth lined? Plastered

And the said applicant hereby warrants, covenants and agrees to and with said Company, that the foregoing is a full, just and
true exposition of all the facts and circumstances, condition and value of property to be Insured, and is offered as a basis of the in-
surance requested, and is made a special warranty the same as if written on the face of the Policy. For and in consideration
of 3020 DOLLARS, Insured in THE SANTA CLARA COUNTY FIRE INSURANCE COMPANY, I bind myself, heirs, executors, ad-
ministrators and assigns, to pay my PRO RATA share of all assessments declared by the Directors of said Company, within sixty days, said
assessments to be applied to pay losses that may happen to members of said Company, or incidental expenses, during the life of my Policy.

And the said applicant further covenants and agrees with said Company, that the By-Laws of the said Company shall form a part
of the Policy issued in this Application.

It is warranted by the assured that the reservoir is to be filled during the daylight only, when the stove is not in use, and that no
artificial light be permitted in the room when the reservoir is being filled, and no gasoline except that contained in said reservoirs shall
be kept within the building.

IN WITNESS WHEREOF, The signature of the undersigned is affixed, this 21st day of May 1909.

Secretary.

Press of Brower Printing Co., San Jose, Cal.

CLASSIFICATION OF RISKS.

First-class, detached dwellings and contents for the purpose of assessments, in event of loss, be charged as basis rate on each \$100 of valuation, 50 cents.

DEFICIENCIES—

For one or more stovepipes extending through the roof, floor or side walls, add to basis rate, 50 cents.

For one or more terra cotta flues extending through the roof, floor or side walls, add to basis rate 10 cents.

For cloth lining for whole or part of any dwelling, unless closely tacked to wall and papered or painted, add to basis rate 25 cents.

Detached barns or stables and contents rated at \$1.50.

Barns over 400 feet from dwelling, used for storage only, rated at \$2.00.

School-houses and churches rated \$1.50.

Fruit Driers, \$4.00.

All buildings to be detached and not less than 60 feet from other exposures. 25 cents on \$100 added on all buildings less than 60 feet from exposures.

Contents to rate the same as the buildings in which they are kept.

An outbuilding (except a barn or stable) in which no fire is used, is not an exposure to a dwelling; but a barn or stable is an exposure to a dwelling, or a dwelling is an exposure to a barn or stable.

When two or more buildings adjoining or adjacent are occupied by the same person for a common purpose so that the buildings, although separated, constitute a single hazard, are not exposures to each other.

mailed - May 27, 04.

NOTICE TO AGENTS.

On diagram show all buildings insured, and all exposures within 100 feet; say just what each building is occupied for, and mark distances in figures between all buildings shown on Diagram.
